2. GENERAL INFORMATION

2.1 GENERAL DESCRIPTION OF EUT

Product	:	CD-ROM DRIVE
Model No.	:	BCD 36X
Power Supply	:	DC 5V/12V (from PC)
Data Cable	:	Nonshielded (IDE cable) (0.8 m)

Note: The EUT is a 36X CD-ROM DRIVE, which is designed to be used within an IBM PC or compatible computer by using the IDE connection.

User could install one sound card in PC to process audio signals from EUT then output audio to speaker via SPK port located on sound card or only connect headphone to headphone jack on front panel of EUT to listen to an audio directly playing from the CD-ROM DRIVE.

The EUT was tested under the following two conditions:

- (1) The EUT played music CD and audio signals were present via headphone port, no sound blaster card was installed.
- (2) The EUT played video demo CD and PC showed continuous pictures on monitor and present stereo audio via sound blaster card.

The maximum emission levels of the above two conditions are recorded together in this report.

For more detailed features, please refer to manufacturer's specification or User's Manual.

2.2 DESCRIPTION OF SUPPORT UNITS
