

TCB RF Exposure Review Procedure Statement  
FCC ID:E675JS0051

Transmitter Category	Device Type	Product Category	Approval and Review Procedures Used	Specific Procedures:
<b>I</b>	<b>Amplifier</b>	Fixed Transmitters identified in Table 1 of §1.1307	<b>Section A</b>	SP(9)
<p><b>Grant Condition :</b> The output level from power amplifier is dependent upon the level of the input drive signal. The power output listed is the maximum , whether per channel or composite. Emissions listed correspond to AMPS, CDMA, W-CDMA, TDMA and CDPD operation. The antenna(s) used for this transmitter must be fixed-mounted on outdoor permanent structures. RF exposure compliance is addressed at the time of licensing, as required by the responsible FCC Bureau(s), including antenna co-location requirements of §1.1307(b)(3).</p>				
<b>SP9</b>	<p><b>Grant conditions have been reviewed by TCB and has made the determination that device complied with RF Exposure review procedures.</b></p>
