

Non-Conformities FCC ID: E675JS0096 (CKC CS Ref # E07-000129-FCC-01)

The items listed below represent requests for information following review of this application for certification under United States (FCC) regulations. Further question may arise pending review of responses to these items.

OK	#	Non-Conformity or Comment	Submitted Response	Respondent / Date of Response
	1	This equipment operates as a fiber to RF distribution system. Please clarify whether the equipment demodulates the RF signal.	The optical transmitter on the FON board converts the electrical RF modulated signal to a 1310 or 1550nm optical RF modulated signal.	
	2	Pursuant to FCC guidelines for fiber distribution systems, the FCC requires use of equipment class TNB for this type of system. The application was filed with equipment class AMP. Please confirm whether this change is appropriate.	Please correct the 731 form to TNB.
