

Response to E04-000056-1

1. This is a PC II review and the operational description was only uploaded for the Canadian submittal, so confidentiality requests refer to the original submittal which has already been approved, so this is not needed.
2. Moataz is on the 731 form and the FCC grantee code. Please do not look at the operational description for this PC II request.

The only items uploaded which need to be reviewed for the PC II are as follows:

Coil (operational description)
External Photos (external photos)
Internal Photos (internal photos)
Test Setup Photos (test setup photos)
FC02-039C (test report)
Permissive Change II (cover letter)
Model Changes for Permissive Change II (cover letter)
