Columbia, MD 21046

Gentlemen:

At the time FCCID E9UIR12E was granted on 4/26/2001, the letter of confidentiality requested that internal photos be held from public view. Typically internal photos are not held unless it can be shown that the general public could not view the internal workings without destroying the unit. At the time of the filing justification was not provided. This letter is to provide the following justification for holding the internal photos confidential:

The unit is potted and removal of the potting will destroy the boards and antennas. Therefore, Motorola requests the internal photos of the boards and antenna be held confidential. These are listed as items 5 and 6 on the original letter requesting confidentiality.

Joyce Walker
Report Department Manager
Agent for Motorola Indala
