Made in China

J1

The image shows a white rectangular printed circuit board (PCB) with several components. At the top left is a circular hole. To its right is a curved black component. Below the top-left hole is another curved black component. To the right of that is a curved black component with a white tip. Below that is another curved black component with a white tip. At the bottom left is a curved black component. At the bottom center is a green component labeled 'J1'. At the bottom right is a circular hole. A white label with black text is centered on the board.
