Subject: FCC ID: EHA-02CN3

Dear Application Examiner:

The Intermec Model CN3 handheld terminal, FCC ID: EHA-02CN3 can be used with the Intermec Model 6820 printer, which contains the BTS080 Bluetooth radio module, FCC ID: EHABTS080-1.

Configurations of the 6820 include a wall-mount option, where the BTS080 is located within the 6820, and the CN3 is operated remotely. Other configurations utilize a CN3 terminal holder, which is mounted on the 6820. For these configurations, BTS080 is fixed to the terminal holder. Electrical connection of the BTS080 to the 6820 is the same for all configurations.

Some differences in 6820 configurations include mounting of the CN3 terminal holder on the left side of the printer, the right side of the printer, and centered on the front of the printer. These configurations are electrically similar with regard to position of the BTS080 radio module on the CN3 terminal holder and connection to the 6820.

Please contact me by telephone at (425) 356-1765 or by e-mail (sean.mackellar@Intermec.com) if there are questions or additional information needed concerning this request.

Sincerely,

A handwritten signature in black ink, appearing to read "Sean MacKellar".
