Hillsboro, OR 97124

August 17, 2007

Dear Application Examiner:

On behalf of Intermec Technologies, Inc., Northwest EMC, Inc. is submitting this application for a Class 2 Permissive Change of FCC ID: EHA-04CN3, a CN3 handheld computer with an CDMA radio module installed. The Class 2 Permissive Change is to allow for a larger keypad on the CN3 (Stretch CN3). No changes have been made to the radio or antenna path.

SAR testing has been performed on the radio due to the change in the host device. Also, a Part 22/24 radiated test report of the CDMA radio module in the Stretch CN3 has been provided.

Your efforts in reviewing this application are greatly appreciated.

Best regards,

Northwest EMC, Inc.
