Subject: Class II Permissive Change FCC ID: EHA-08CN3

Dear Application Examiner:

Intermec Technologies Corporation with the assistance of Northwest EMC Inc. is submitting an application for a Class 2 Permissive Change for the CN3, FCC ID: EHA-08CN3, to approve a new RF exposure condition.

The new RF exposure configurations occur when the CN3 is docked in the terminal holder of the 6820. The 6820 is a mobile printer that contains the BTS080 Bluetooth radio module, FCC ID: EHABTS080-1.

The BTS080 was previously certified.

No changes have been made to the hardware or software of the radios in these co-located configurations. Co-located MPE estimates for mobile exposure conditions have been submitted. The exhibits submitted demonstrate compliance with FCC rules.

Your efforts in reviewing this application are greatly appreciated.

Please contact me by telephone at (425) 356-1765 or by e-mail (sean.mackellar@Intermec.com) if there are questions or additional information needed concerning this request.

Sincerely,

A handwritten signature in black ink, appearing to read "Sean MacKellar", is placed above the typed name and title.
