Overview

This application is for the approval of Intermec Technologies' model 1015CP01S (CN51) FCC ID: EHA-1015CP01SX1. The CN51 is a handheld computer radio modules Cinterion pxs8 (a CDMA/GSM/WCDMA radio) and a Murata LBEH59XUHC (802.11 b/g/n – Bluetooth radio). The Bluetooth and 802.11 radios share an antenna and cannot transmit simultaneously. The cellular radio can transmit simultaneously with either the 802.11 radio or the Bluetooth radio. SAR evaluation was performed and a report submitted for the various configurations.

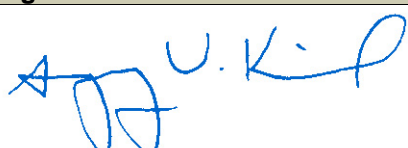

Confidentiality requested for allowed files. Request is properly addressed and referenced.

Short term confidentiality requested.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
