**Subject: Class II Permissive Change FCC ID: EHA-IM11**

Dear Application Examiner:

Intermec Technologies Corporation d/b/a Honeywell Scanning and Mobility is submitting an application for a Class 2 Permissive Change to permit the co-location of Intermec's Model: IM11 RFID radio module (FCC ID: EHA-IM11) with BlueGiga's Model: WT12 Bluetooth radio module (FCC ID: QOQWT12) inside Intermec's Model: IP30C Handheld RFID Reader.

The IM11 radio module will also be co-located with radios within Intermec Technologies handheld computer products, which interface with the IP30C. The Intermec Technologies handheld computer products are listed below:

<u>Models:</u>	<u>FCC ID:</u>
1000CP01, 1000CP02, 1001CP01	EHA-1000CP01X2
1000CP01U, 1000CP02U, 1001CP01U	EHA-1000CP01UX1
1000CP01C, 1000CP02C, 1001CP01C	EHA-1000CP01CX2
1000CP01S, 1000CP02S, 1001CP01S	EHA-1000CP01SX1

In this configuration, only hand-held use is possible, so MPE estimates were performed for the co-located radios. In addition to the MPE report that documents compliance for body exposure, extremity SAR for the handheld use condition was evaluated in a separate test report.

No changes have been made to the hardware or software of the radios in these co-located configurations.

Your efforts in reviewing this application are greatly appreciated. Please contact me if there are questions or additional information needed concerning this request.

Sincerely,

Sean MacKellar
