Top section of the PCB containing various electronic components:

- Large integrated circuit (IC) on the right side.
- Several smaller ICs and surface-mount components.
- A multi-pin connector at the top center.
- Various resistors and capacitors.

Bottom section of the PCB containing various electronic components:

- Large rectangular component on the left side, possibly a sensor or display.
- Several smaller ICs and surface-mount components.
- Four gold-plated threaded connectors at the bottom edge.
- Various resistors and capacitors.
