Dear Sir:

Subject: FCC Certification Application, Change of Identification, FCC ID: EHACLMC350
Reference: Cisco Systems original FCC grant, FCC ID: LDK102040 issued Oct. 13, 2000

Please review the following application for a change in identification. Intermec Technologies Corporation has submitted a 159-form authorizing credit card payment in the amount of \$985.00 and a 731-application form for the change.

Intermec Technologies Corporation will be integrating the radio module within Intermec products. Cisco Systems has requested we place those products under an Intermec FCC ID.

The radio is electrically identical, only the change in FCC ID. The data currently on file with the FCC is still representative of this products regulatory characteristics. All modular approval conditions also remain valid for the product. The antennas identified in the original grant and subsequent permissive changes to FCC ID: LDK102040 are the only antennas Intermec will use with the radio.

Accompanying this letter are photographs of the exterior, as well as label diagrams for your records.

Please contact me at (319) 846-2415 or e-mail frydave@norand.com should you have any question regarding this change in FCC ID.

Sincerely,

Dave Fry,
Regulatory Engineer II
