October 11, 2006

Dear Application Examiner:

On behalf of Intermec Technologies Corporation, Northwest EMC is submitting this application for a Class 2 Permissive Change for the CDMA radio, FCC ID: EHAEM3420. The radio is installed in Intermec's 700C handheld computer. The Sierra Wireless CDMA radio, M/N: EM3420, has been previously certified for use in the 700C. Intermec has made no changes to the hardware or software of the CDMA radio. Intermec is seeking a C2PC to co-locate the radio in the 700C with a Bluetooth radio (FCC ID: EHABTS080) and 802.11 radio (FCC ID: EHADRCEB)

The Bluetooth radio, BTS080, has been previously certified for limited modular approval in the 700C under the FCC ID: EHABTS080. The 802.11 radio, DRCEB, has been previously certified for limited modular approval in the 700C under the FCC ID: EHADRCEB.

Intermec has made no changes to the BTS080 or the DRCEB radios. Intermec has provided SAR reports for the co-located configurations, as well as labeled photos, sample ID labels, and compliance inserts for the users manuals.

The exhibits provided demonstrate compliance with the FCC rules for a Class 2 Permissive change.

Your efforts in reviewing this application are greatly appreciated.

Best regards,

Northwest EMC, Inc.
