

The Intermec logo is positioned vertically on the left side of the page. It features the word "Intermec" in a bold, blue, sans-serif font. To the right of the text is a stylized graphic consisting of several overlapping circles and lines, resembling a network or orbital path, rendered in a light blue color. Below the text, there is a small blue square containing a white circular graphic with lines, similar to the larger graphic to its right.

RE: Tune-up Procedure for FCC ID: EHAMC75 GSM Module in 700C Hand Held Computer

To whom it may concern,

The MC75 quad-band GSM module requires no adjustments of components after assembly. The 700C hand held computer host device, likewise, requires no adjustments of components after assembly. Settings for radio and hand held computer operation require specialized equipment only available to Intermec manufacturing and service personnel.

Please Contact me if there are any questions.

Yours truly,

A handwritten signature in black ink, reading "Scott Holub". The signature is written in a cursive, flowing style.
