

Information about the Applicant

Company Name	Intermec Technologies Corporation
Grantee	550 Second St. SE
Address	Cedar Rapids, IA 52401-2023
City, State, Zip	Dave Fry
Job Number	ITRM0034
Model	RM915L
FCC ID	EHARM915L
Agent	Northwest EMC, Inc.
Approval Type	Class II Permissive Change
Equipment Class	DSSS
Rule Part	15.247

Overview

This application is for the Class II Permissive Change of Intermec's radio module, FCC ID: EHARM915L. Because the part for IC U84 is no longer available a different part had to be substituted. There have been no other changes to the radio module.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.

Specification	Finding

Opinions

Specification Requirements	Description
15.207	If the EUT is connected to the AC power line indirectly, obtaining its power from another device that is connected to the AC power line, then it should be tested to demonstrate compliance with the conducted limits of 15.207

Opinion: The Equipment meets the intent specified by the requirements listed above.

Discussion: The Applicant has submitted test results in the form of a test report.

Reference: Technical Report

Specification Requirements	Description
15.247(c)	The field strength of any spurious emissions or modulation products that fall in a restricted band, as defined in 15.205, is measured. The peak level must comply with the limits specified in 15.35(b). The average level (taken with a 10Hz VBW) must comply with the limits specified in 15.209.

Opinion: The Equipment meets the intent specified by the requirements listed above.

Discussion: The Applicant has submitted test results in the form of a test report.
