

NORTHWEST EMC, INC.

22975 NW Evergreen Parkway, Suite 400
Hillsboro, OR 97124

March 30, 2005

Dear Application Examiner:

On behalf of Intermec Corporation, Northwest EMC, Inc is submitting this application for the Class II Permissive Change of Intermec's MC46 transmitter, FCC ID: EHASMC46. It is a GSM/GPRS radio module. It was granted limited modular approval as a portable device for use in Intermec's handheld computer, Model 700C. There have been no changes to the radio or its antenna. Approval is sought for use in a co-located radio configuration as described below.

The 700C can be configured with up to three co-located radio modules (GSM (or CDMA), 802.11b/g and Bluetooth). Please note that the GSM and CDMA radios are never installed in the same 700C. Each radio transmits through its own antenna.

This Class II application demonstrates compliance with FCC requirements while the MC46 module (FCC ID: EHASMC46) installed in the 700C is co-located with an 802.11b/g radio module (FCC ID: EHA2610CF) and a Bluetooth radio module (FCC ID: EHABTS080).

The technical reports and exhibits demonstrate compliance with FCC rules 47 CFR 22H and 24E, and 2.1093.

Your efforts in reviewing this application are greatly appreciated.

Best regards,

A handwritten signature in blue ink, appearing to read "G. Kiemel". The signature is stylized and written in a cursive-like font.

Greg Kiemel, Director of Engineering
Northwest EMC, Inc.
