Re: Certification of T938 FCC ID: EJE-EM7455D1, IC: 337J-EM7455D

This document describes the difference between the original certified host model and the new host model Notebook PC.

The changes are only in relation to the CPU chipset of the host unit. The Radio modules, Antennae and the Antennae positions are identical to the original certified products.

The main reason for submitting a Class II PC is due to adding a family model T938 to the existing FCC and IC Certification Grant dated FCC 12/22/2016 and IC 12/21/2016 So, a new FCC and IC Grant to be issued for Host model T938 for FCC ID: EJE-EM7455D1, IC: 337J-EM7455D
