To The Commission:

Re: C2PC authorisation and cover letter FCC ID: EJE-MC8355D

(WWAN Module: MC8355 (GOBI3000))

Fujitsu Limited hereby authorises Fujitsu Australia Ltd, Mr Praveen Rao to file Class II permissive change applications for FCC ID: EJE-MC8355D

This letter grants authorization to cover class II permissive change application to allow previously certified WWAN module MC8355D to be used with tested and certified Fujitsu notebook/tablet PCs under FCC ID: EJE-MC8355D.

The pre-certified Wireless WAN module Sierra Wireless Gobi3000, model MC8355 was tested with various individual Fujitsu Tablets and notebook PCs and certified independently last year under Sierra's own FCC ID: N7NMC8355 and IC ID: 2417C-MC8355.

Due to module vendor SKU limitations, the FCC and IC ID on these products are required to be changed under Fujitsu's own FCC ID: EJE-MC8355D and IC ID: 337J-MC8355D. The change of ID process is completed and was Granted on 12th Sept 2012 and 13th Sept 2012 respectively.

There is no difference in the Radio modules configuration or the host products. The exact hardwares certified last year are reported here with the only difference of Label change on the products.

Following products are to be covered under this certification:

Convertible notebook/tablet PC models: T902 (Grant 30th July 2012) and T732 (Grant 25th Sept 2012)
Typical notebook PCs (mobile): S762/S792, E752/E782, S752/S782, U772 (Common Grant 10th April '12)

Previous Certification was under Sierra's FCC ID: N7NMC8355 and IC ID: 2417C-MC8355

This certification is for a new label with Fujitsu's own FCC ID: EJE-MC8355D and IC ID: 337J-MC8355D

Sincerely,

A handwritten signature in black ink, appearing to read "Tsuyoshi Uchihara", written over a horizontal line.
