Dear Chieu,

The review of the application is complete. Please reply to the following items relative to the DSS part of this application. If you have questions, please ask.

Q1: The Telefication Report 20072023301 page 94 references ANSI C563.4:1992 as the test method. FCC now requires use of ANSI C63.4:2003. As this is a recently issued report this is likely due to an oversight. I am aware that this test report has previously been accepted by a TCB for certification, but reference to the incorrect standard makes the report unacceptable for a new filing. Please email to Telefication and request that they confirm the test method used for this report was in fact ANSI C63.4:2003. Their email reply will be sufficient to accept the report.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards

Tim Dwyer

Dear Chieu,

The review of the application is complete. Please reply to the following items relative to the DSS part of this application. If you have questions, please ask.

Q1: The Telefication Report 20072023301 page 94 references ANSI

C563.4:1992 as the test method. FCC now requires use of ANSI C63.4:2003. As this is a recently issued report this is likely due to an oversight. I am aware that this test report has previously been accepted by a TCB for certification, but reference to the incorrect standard makes the report unacceptable for a new filing. Please email to Telefication and request that they confirm the test method used for this report was in fact ANSI C63.4:2003. Their email reply will be sufficient to accept the report.

Answer1: Typo in the report corrected and re-issued report is attached. Please see page 93.
