Hello Chieu,

Please respond to the following issue for this application.

Q1: In order to satisfy co-location evaluation requirements, please provide minimum separation distance between BT antenna and WLAN antennas for both notebook and tablet operation.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards,

Tim Dwyer

Notice#1

Hello Chieu,

Please respond to the following issue for this application.

Q1: In order to satisfy co-location evaluation requirements, please provide minimum separation distance between BT antenna and WLAN antennas for both notebook and tablet operation.

A1. The Antenna detail document is common for 2 of Intel's similar WLAN modules, SP 512_AN (1x2 - MISO) and SP 533_AN (3x3 - MIMO) as shown on the cover page of this document. Please ignore Tx 3 Antenna (Antenna 3) in this document for this application. Also refer attached Tx010 Ant Positions document.

that partial responses increase processing time and should not be submitted.
Any questions about the content of this correspondence should be directed to
the e-mail address listed below the name of the sender.

Best regards,

Tim Dwyer
