Subject: Re: Fujitsu Limited, FCC ID: EJE-WB0076, Assessment NO.: AN09T9626,  
Notice#2

In addition to earlier requests, the EMC test report does not include any statement that the product was evaluated in 3 orthogonal orientations as required by ANSI C63.4 for handheld devices. FCC considers tablet computers to be handheld when used in tablet mode, so this evaluation is necessary. Can you provide additional detail as to whether this evaluation was performed?

Tim,

We can confirm that all orientations were investigated and tested, with the worst mode reported.

This is applicable for all current Fujitsu applications.

Regards
