Subject: Passive Scan, Client Device for IC: 1000M-62205ANH

To Whom It May Concern,

The IC: 1000M-62205ANH WLAN module operates as a Client device in the DFS LELAN bands. As a Client device the IC: 1000M-62205ANH will not transmit unless there is an approved Master devices operating. As a client device the WLAN module passively scans (listening) for a Master device and can not operate in ad-hoc mode. In the 5600 – 5650MHz band the IC: 1000M-62205ANH operates as stated above and will not transmit in this band as there will not any Master device operating in this band.

If you have any questions, please do not to hesitate to contact me at 803-216-2344.

Sincerely,

A handwritten signature in black ink, appearing to read "Steven C. Hackett". The signature is written in a cursive style with a horizontal line underneath it.
