- 2 Use the scroll wheel to scroll up and down the screen.
- **3** Press and hold the scroll wheel down, then move the mouse up and down to scroll up and down the screen.
- Note: This feature may not be available in all programs.

Battery indicator LED

- The LED indicator lights green for three seconds and then it turns off when the keyboard/mouse is switched on and pairing is established.
- The LED indicator flashes red when the battery level is low. Replace the battery.

Cleaning your mouse and keyboard

• Wipe the mouse and keyboard with a damp, lint-free cloth.

Troubleshooting

- · Make sure that your computer meets the system requirements. • Only use the mouse on a clean, flat, non-slippery surface to ensure smooth and
- accurate cursor action. • If your computer BIOS setup has mouse options, make sure that they are set to default settings.

Replace the battery.

FCC statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- —Consult the dealer or an experienced radio/TV technician for help.

IC-RSS210 statement

This device complies with Industry Canada licence exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

ICES-003 statement

This Class B digital apparatus complies with Canadian ICES-003; Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Caution

Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.
