United States, FCC Notices

FCC Radiation Exposure Statement

WARNING: The radiated output power of Dell Bluetooth/wireless devices is far below the FCC radio frequency exposure limits. Nevertheless, Dell Bluetooth/wireless devices should be used in such a manner that the potential for human contact during normal operation is minimized.

This device has also been evaluated for and shown compliant with the FCC RF exposure limits under portable exposure conditions (antennas are within 20 cm of a person's body) when installed in certain specific OEM configurations. Details of the authorized configurations can be found at **Fjallfoss.fcc.gov/oetcf/eas/reports/GenericSearch.cfm** by entering the FCC ID number on the device.

Interference Statement

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the manufacturer's instruction manual, may cause interference with radio and television reception. This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The FCC regulations provide that changes or modifications not expressly approved by Dell Inc. could void your authority to operate this equipment.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference with radio or television reception, which can be determined by turning the equipment off and on, you are encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna.
- Relocate the system with respect to the receiver.
- Move the system away from the receiver.
- Plug the system into a different outlet so that the system and the receiver are on different branch circuits.

If necessary, consult a representative of Dell Inc. or an experienced radio/television technician for additional suggestions.

NOTE: Dell Bluetooth/wireless devices must be installed and used in strict accordance with the manufacturer's instructions as described in the user documentation that comes with the product. Any other installation or use will violate FCC Part 15 regulations. Modifications not expressly approved by Dell could void your authority to operate the equipment.

REACH (Registration, Evaluation, Authorization of Chemicals - registrering, utvärdering, auktorisation av kemikalier)

REACH är den europeiska unionens (EU) regelverk för kemikaliska ämnen. Information om angelägna ämnen i Dell-produkter med koncentration över 0,1 % vikt per vikt (w/w) finns på **Dell.com/REACH**.

Kimyasal Maddeleri Kaydetme, Değerlendirme ve Onaylama (REACH)

REACH, Avrupa Birliği'nin (AB) kimyasal maddelerle ilgili mevzuatıdır. Dell ürünlerinde bulunan, ağırlıkça (w/w) %0,1'in üzerinde yoğunluğa sahip yüksek önem arzeden maddelerle ilgili bilgi için: **Dell.com/REACH** sitesini ziyaret edin.

Battery Directive – Information for Users

In the European Union, this label indicates that the batteries in this product should be collected separately and not be disposed of with household waste. Substances in batteries can have a potential negative impact on health and environment and you have a role in recycling waste batteries thus contributing to the protection, preservation, and improvement of the quality of the environment. You should contact your local authority or retailer for details of the collection and recycling schemes available. Alternatively please visit **Dell.com/recycling**.

Директива за батерии – Информация за потребителите

В Европейския съюз този етикет указва, че батериите в този продукт следва да бъдат събирани отделно, а не да се изхвърлят с битовите отпадъци. Веществата в батериите може да имат потенциално отрицателно въздействие върху здравето и околната среда и вие участвате в рециклирането на отпадъците от батерии, като по този начин допринасяте за защитата, опазването и подобряването на качеството на околната среда. Следва да се обърнете към местните органи или търговец на дребно за подробности по наличните схеми за събиране и рециклиране. Също така можете да посетите **Dell.com/recycling**.
