

BLUETOOTH® KEYBOARD

Rev 0.1

User's Quick Guide

Congratulations on your purchase of the Primax KBBT70811 NEMO Bluetooth® Keyboard! This guide will take you through all the functions of this keyboard.

Introduction

is the latest in a wide range of tablet peripherals manufactured by Primax and is designed to provide you with the highest level of comfort available while also allowing for maximum functionality.

Primax KBBT70811 NEMO Bluetooth® Keyboard

Safety Guidelines

Physical discomfort and injury can be caused by the incorrect use of your keyboard. Follow these guidelines to ensure such problems are avoided:

- Sit up straight in your chair, with your elbows by your side.
- Adjust the height of your chair so your arm bends at a 90-degree angle respective to your desk.
- Position your keyboard in front you, to the side of your keyboard.
- Do not slouch or hunch over your workspace. It is important to keep your wrists, arms and shoulders relaxed.
- If necessary, use a wrist rest or a palm rest to alleviate extra stress placed on your joints when typing or using the keyboard, especially for long periods of time.

If you experience any feelings numbness, cramp, swelling or stiffness in your wrist, arms, neck or shoulders, consult your local doctor or nearest health institution immediately.

Bluetooth® keyboard connection settings

BLUETOOTH® KEYBOARD

Rev 0.1

Follow below steps to connect the Bluetooth® keyboard and the tablet system.

1. Turn on the power switch in right side of the Bluetooth® keyboard. The keyboard connection indicator light blinks blue.

 **Note:** If the Bluetooth® indicator lights stop blinking, long press the connect buttons on the keyboard to restart the connection process.

 **Note:** If the indicator blinks quickly, it means this keyboard has been paired before. Long press the connection button to clean the paired data and restart the connection.

2. Turn on Bluetooth in Tablet/iPad/Laptop settings. Tablet/iPad/Laptop will start discovering the list of available Bluetooth® devices for pairing.

 **Note:** If NEMO Bluetooth Keyboard is not found, long press the Keyboard connect button and manually trigger the device search again in tablet/iPad/Laptop.

3. Select the **Primax NEMO Keyboard** from the list.
4. Using Primax Bluetooth® Keyboard to enter the pairing code and press the **Enter** key to complete the Bluetooth connection.

After the pairing process is completed, the last paired data will be stored. Auto connection will be supported in later operation.

Bluetooth® keyboard Hotkey support

The hotkey function support, position or printing might be various while shipping. Enclosed is Windows 8 version.

BLUETOOTH® KEYBOARD

Rev 0.1

LED Indicator

This Keyboard includes one LED in the left side with 2 colors presenting connection and power status.

1. In Pairing (Blue): Blinking one time every 1 second, time out after 5 minutes.
2. In Reconnecting (Blue): Double blinking every 1 second, time out after 10 seconds.
3. Just Connected (Blue): Steady for 2 seconds.
4. Low Power (Orange): Blinking orange LED one time every 1 second until it enters another mode.
5. Charging (Orange): Orange LED on. It will be off after the battery is full.

Power Supply

This keyboard has built-in rechargeable Li-on battery. When user first time opens the box, it's recommended to fully charge the battery with bundled cable through MicroUSB port.

Troubleshooting

Question: My keyboard is not working. What should I do?

Answer:

1. Check if the Bluetooth® connection is turned on correctly in the system side.
2. Other system devices, such as PC cards, may cause conflicts that prevent your keyboard from working properly. Check the settings of these devices and make any changes as necessary. Reboot your computer and re-attach the keyboard.

Low Battery Notification

When the keyboard is running out of power, the indicator will blink orange.

Please re-charge the batteries with microUSB connector to continue to use the keyboard.

Wake up the keyboard

Press any button to wake up the keyboard while the keyboard is in the standby mode.

Federal Communication Commission Interference Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
