Subject: Primax Electronics Ltd., FCC ID: EMJM2PR01, Assessment NO.: AN06T6045, Notice#1

Question #1: The Schematic diagram shows 8 channels including 27.045MHz on page 3, please confirm how many channels will be used for this device. The test report indicates one channel only at 27.047MHz. Please update the test report if necessary.

(ERIC: Please be advised that the only channel used is 27.045MHz, we have revised the report as attached.)

Question #2: The file named "External photos" contains internal photos, the file named "Internal photos" contains external photos. Please rename the files.

(ERIC: Please find the updated external photos and internal photos !)

Question #3: The block diagram and schematic diagram include receiver portion, which should be removed from the filing, as it will not be covered by this certification.

(ERIC: Please find the updated materials attached)

Best Regards,
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
