### Procedure A:

Check the following:

- Install the mouse again.
- Access your computer Basic Input/Output System (BIOS) Setup Utility program during the startup process and make sure that all the USB connectors on your computer are enabled.

#### Notes:

- For information about how to access or use the BIOS Setup Utility program on your computer, see the documentation that came with your computer.
- If all USB connectors on your computer do not work, probably the computer BIOS does not support them. To solve this problem, go to <http://www.lenovo.com/support> to download the latest BIOS updates, or go to <http://www.lenovo.com/support/phone> to find the Lenovo technical support for your country or region.
