"GSA" contract, use, reproduction, or disclosure is subject to restrictions set forth in Contract No. GS-35F-05925.

Product description

The Lenovo Wireless Optical Mouse enable you to control vertical and horizontal scrolling using the tilt wheel. For the other two mice, you can use the scrolling wheel to control vertical scrolling.

Note: You need to install the Lenovo Mouse Suite software before using the horizontal scrolling function. Each mouse can be connected to any enabled Universal Serial Bus (USB) connector on your computer.

Each mouse is supported on the following operating systems:

- Microsoft Windows XP (32-bit)
- Microsoft Windows Vista® (32-bit or 64-bit)
- Microsoft Windows 7 (32-bit or 64-bit)

Each option package includes a mouse and the following:

- Software and User Guide CD
- Laser Safety Manual
- Warranty poster

Installing the software

The Software and User Guide CD contains the Lenovo Mouse Suite software for the mouse. It is recommended that you install the Lenovo Mouse Suite software to customize advanced settings before you use the mouse.

Note: It is recommended that you uninstall any previously installed mouse software before installing the Lenovo Mouse Suite software.

To install the Lenovo Mouse Suite software, do the following:

- 1. Save any open documents and exit all applications.
- 2. Insert the Software and User Guide CD and do one of the following:
- If the CD starts automatically, go to step 3.
- If the AutoPlay window opens, click **Run start.bat**. Then, go to step 3.
- If the CD does not start automatically, go into My Computer or Computer, browse the CD/DVD drive, and double-click
 Start.bat.
- 3. Follow the instructions on the screen.

Note: In the Hardware Interface Selection window, select USB (Universal Serial Bus) Interface.

4. When prompted, restart your computer.

Installing the mouse

This topic contains information about installing the mouse.

To install the mouse, connect the mouse to an available USB connector on your computer. The New Hardware Found window opens, and the Windows operating system will automatically install the proper device driver for the mouse. Then, the mouse is ready for use.

Using the software

Each mouse has multiple functions and features such as zooming and auto-scrolling, which help you increase your productivity. You also can assign frequently used functions or shortcuts to the mouse buttons using the Lenovo Mouse Suite software.

To use the Lenovo Mouse Suite software, do the following:

1. Click Start → All Programs → Lenovo Mouse Suite → Mouse Suite.

- 2. The main window opens with several tabs. Click each tab to view related settings. On each tab there are four buttons:
- OK: Save your settings and close the window.
- Cancel: Exit the window without saving.
- Apply: Have your changes take effect without closing the window.
- Help: View the help information system.

Note: The Lenovo USB Laser Mouse supports the mouse resolution from 400 dots per inch (DPI) to 2000 DPI. By default, the mouse resolution setting is 1600 DPI. The ThinkPad USB Laser Mouse supports the mouse resolution from 400 DPI to 1600 DPI. By default, the mouse resolution setting is 1200 DPI. To change the resolution setting, do the following:

1. Click Start → All Programs → Lenovo Mouse Suite → Mouse Suite.

- 2. In the Mouse Properties window, click the Lenovo tab. Then, click Advanced Properties.
- 3. In the **Resolution Adjustment Setup** area, select the corresponding radio button to set the preferred mouse resolution.
- 4. To confirm your setting, click Apply. For more information about the setting, click Help.

Troubleshooting

This topic contains troubleshooting information for the mice. If you encounter any of the following problems when using the mice, refer to the corresponding answers.

Problem: The mouse is not recognized by the operating system.

Solution: To solve the problem, perform one of the following procedures:

Procedure A:

Check the following:

· Install the mouse again.

• Access your computer Basic Input/Output System (BIOS) Setup Utility program during the startup process and make sure that all the USB connectors on your computer are enabled.

Notes:

 For information about how to access or use the BIOS Setup Utility program on your computer, see the documentation that came with your computer.

– If all USB connectors on your computer do not work, probably the computer BIOS does not support them. To solve this problem, go to http://www.lenovo.com/support to download the latest BIOS updates, or go to http://www.lenovo.com/support/phone to find the Lenovo technical support for your country or region.

Procedure B:

1. Click Start → Control Panel.

2. Depending on your Control Panel mode, double-click System or click Performance and Maintenance → System.

- 3. Click the Hardware tab.
- 4. Click Device Manager.

5. Scroll down until you find Mice and other pointing devices. Then, expand the Mice and other pointing devices category.

6. Right-click **HID-compliant mouse**, and then select **Uninstall**. A warning will be displayed, prompting you that you are going to remove a device from the operating system.

7. Click OK.

8. Right-click **Mice and other pointing devices**, and then select **Scan for hardware changes** to re-detect the hardware. **Note:** You might be asked to insert the Windows installation CD.

Problem: The mouse pointer cannot move.

Solution: To solve the problem, do the following:

- · Ensure that you have followed all installation procedures.
- Reinstall the Lenovo Mouse Suite software.
- Clean the mouse lens with a soft cotton swab. Do not use any other liquid or solvent to clean the mouse lens as this might cause damage to the lens.

• Put a mouse pad under the mouse. If the mouse is moving on a highly reflective surface, especially a glass or mirror surface, the mouse might not be able to work.

Problem: The horizontal scrolling speed cannot be changed on the Wheel tab in the Mouse Properties window.

Solution: To solve the problem, customize the horizontal scrolling speed setting by doing the following:

1. Click Start → All Programs → Lenovo Mouse Suite → Mouse Suite.

2. In the Mouse Properties window, click the Lenovo tab. Then, click Advanced Properties.

3. In the Advanced Properties window, click the Wheel tab.

4. In the Horizontal Scrolling area, move the slider right to increase or left to decrease the horizontal scrolling speed.

Caring for the mouse

Always disconnect the mouse before cleaning. Keep beverages away from the mouse working area and avoid any spills. The maintenance of your mouse will ensure longer life and minimize the chances of causing damage to your mouse and computer. There are no user serviceable parts.

Product description

The ThinkPad Wireless Optical Mouse has a tilt wheel to control vertical and horizontal scrolling. It uses the Wireless

technology to connect to the operating system.

The following figure shows the front view and rear view of the ThinkPad Wireless Optical Mouse

Figure 1. Front view and rear view of the mouse

- 1. Right button
- 2. Left button
- 3. Scrolling wheel
- 4. LED indicator
- 5. Battery compartment cover

- Microsoft Windows XP (32-bit)
- Microsoft Windows Vista (32-bit or 64-bit)
- Microsoft Windows 7 (32-bit or 64-bit)

Your option package includes the following:

- ThinkPad Bluetooth Laser Mouse
- Two AA batteries
- Software and User Guide CD
- · Laser Safety Manual
- · Warranty poster

Installing the software

The Software and User Guide CD contains the Lenovo Mouse Suite software for the mouse. It is recommended that you install the Lenovo Mouse Suite software to customize advanced settings before you use the mouse.

Notes:

• It is recommended that you uninstall any previously installed mouse software before installing the Lenovo Mouse Suite software.

• Turn on the Bluetooth radio in your computer before installing the Lenovo Mouse Suite software.

To install the Lenovo Mouse Suite software, do the following:

- 6. Battery compartment release button
- 7. Wireless connection button
- 8. Power switch
- 9. Optical output

- 1. Save any open documents and exit all applications.
- 2. Insert the Software and User Guide CD and do one of the following:
- If the CD starts automatically, go to step 3.
- If the AutoPlay window opens, click Run start.bat. Then, go to step 3.
- If the CD does not start automatically, go into **My Computer** or **Computer**, browse the CD/DVD drive, and double-click **Start.bat**.
- 3. Follow the instructions on the screen.

Note: In the Hardware Interface Selection window, select Bluetooth Interface.

4. When prompted, restart your computer.

Installing the batteries

The ThinkPad Bluetooth Laser Mouse needs two AA batteries to work with your computer. For better performance, it is recommended that you install alkaline batteries in your mouse.

To install the batteries, do the following:

- 1. Press the battery compartment release button to open the battery compartment cover.
- 2. Insert the two batteries according to the polarity indicators in the mouse.
- 3. Push down the battery compartment cover and slide it forward until it clicks into place.

Notes:

- The green light-emitting diode (LED) indicates that the batteries are charged and the mouse is ready for use.
- The flashing amber LED indicates a low battery power level. You need to install new batteries.
- Push the power switch on the mouse to the off position when you are not using the mouse. This extends the battery life.

Using the mouse and the software

The ThinkPad Bluetooth Laser Mouse has multiple functions and features such as zooming and auto-scrolling, which help you increase your productivity. You also can assign frequently used functions or shortcuts to the mouse buttons using the Lenovo Mouse Suite software. For more information about using the Lenovo Mouse Suite software, see "Using the software" on page .

Troubleshooting

This topic provides basic troubleshooting information when you encounter problems with your mouse.

Problem: The ThinkPad Bluetooth Laser Mouse is not recognized by your computer.

Solution: To solve the problem, do the following:

- · Ensure that the Bluetooth radio is turned on and the Bluetooth works.
- Ensure that the Bluetooth connection button on the mouse is switched on.
- · Log in to your notebook computer BIOS interface, and set all options related to mouse to default. For details about the

BIOS settings, refer to the user guide that came with your notebook computer.

• Ensure that your notebook computer is compatible with the mouse.

Problem: The mouse pointer cannot move.

Solution: To solve the problem, do the following:

- Ensure that you have followed all installation procedures.
- Reinstall the Lenovo Mouse Suite software.

• Clean the mouse lens with a soft cotton swab. Do not use any other liquid or solvent to clean the mouse lens as this might cause damage to the lens.

• Put a mouse pad under the mouse. If the mouse is moving on a highly reflective surface, especially a glass or mirror surface, the mouse might not be able to work.

Problem: The horizontal scrolling speed cannot be changed on the Wheel tab in the Mouse Properties window.

Solution: To solve the problem, customize the horizontal scrolling speed setting by doing the following:

1. Click Start → All Programs → Lenovo Mouse Suite → Mouse Suite.

- 2. In the Mouse Properties window, click the Lenovo tab. Then, click Advanced Properties.
- 3. In the Advanced Properties window, click the Wheel tab.
- 4. In the Horizontal Scrolling area, move the slider right to increase or left to decrease the horizontal scrolling speed.

Installing the mouse

This topic provides information on how to install the mouse.

To install the mouse, do the following:

1. Open the battery compartment cover.

2. Take out the dongle.

3. Connect the dongle to an available USB connector on the computer.

4. Insert two AA batteries into the mouse compartment according to the polarity indicators.

CAUTION:

There is a risk of explosion if a battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.

5. Push the power switch on the mouse to the on position and the LED indicator is on.

Notes:

- The green LED indicates that the mouse is ready for use.
- The flashing red LED indicates a low battery power level.
- Push the power switch on the mouse to the off position when you are not using the mouse. This extends the battery life.

Troubleshooting

This topic provides basic troubleshooting information when you encounter problems with your mouse.

Problem: The mouse pointer cannot move.
