

## IMPORTANT PRODUCT INFORMATION GUIDE

This Important Product Information Guide contains safety, handling, regulatory information.

### IMPORTANT SAFETY AND HANDLING INFORMATION

**WARNING:** Failure to follow these safety instructions could result in fire, electric shock, or other injury or damage to nabi or other property.

#### CARRYING AND HANDLING NABI.

nabi contains sensitive components. Do not drop, disassemble, open, crush, bend, deform, puncture, shred, microwave, incinerate, paint, or insert foreign objects into nabi. Do not heat or dispose of nabi in a fire. Do not leave the nabi in direct sunlight, or in close proximity to a heat source for extended periods.

#### AVOIDING WATER AND WET LOCATIONS.

Do not use nabi in rain or other wet locations. Take care not to spill any food or liquid on nabi. In case nabi gets wet, unplug all cables, turn off nabi (press the Power button) before cleaning, and allow it to dry thoroughly before turning it on again. Do not attempt to dry nabi with an external heat source, such as a microwave oven or hair dryer. A nabi that has been damaged as a result of exposure to liquids is not serviceable and not covered under warranty.

#### REPAIRING OR MODIFYING NABI.

Never attempt to repair or modify nabi yourself. Disassembling nabi may cause damage. nabi does not contain any user-serviceable parts. Service should only be provided by a Fuhu Authorized Service Provider. If nabi has been in contact with liquids, punctured, or subjected to a severe fall, do not use it until you take it to a Fuhu Authorized Service Provider. For service information, please visit: [www.nabi.com/support](http://www.nabi.com/support).

#### POWERING NABI.

To power nabi, only use the nabi Power Adapter. The nabi Power Adapter may become warm during normal use. Always allow adequate ventilation around the nabi Power Adapter. Do not connect or disconnect the nabi Power Adapter with wet hands.

Unplug the nabi Power Adapter if any of the following conditions exist:

- The power cord or plug has become frayed or damaged.
- The adapter is exposed to rain, liquid, or excessive moisture.
- The adapter case has become damaged.
- You suspect the adapter needs service or repair.
- You want to clean the adapter.

Read all safety instructions for any products and accessories before using with nabi. Fuhu is not responsible for the operation of third-party accessories or their compliance with safety and regulatory standards.

**WARNING:** Do not place cord around head or neck! Risk of strangulation.

#### AVOIDING HEARING DAMAGE.

Hearing damage may occur if product is used at high volume. Set the volume to a safe level. You can adapt over time to a higher volume of sound that may sound normal but can be damaging to your hearing. If you experience ringing in your ears or muffled speech, stop listening and have your hearing checked. The louder the volume, the less time is required before your hearing could be affected. Hearing experts suggest that to protect your hearing:

- Limit the amount of time you use earbuds, headphones, speakers, or earpieces at high volume.
- Avoid turning up the volume to block out noisy surroundings.
- Turn the volume down if you can't hear people speaking near you.

**WARNING: CHOKING HAZARD - Small Parts Not for children under 3 yrs.** nabi contains small parts, which may present a choking hazard to small children. Keep nabi and its accessories away from small children.

#### POTENTIALLY EXPLOSIVE ATMOSPHERES.

Turn off nabi (press the Power button) when in any area with a potentially explosive atmosphere. Do not charge nabi and obey all signs and instructions. Sparks in such areas could cause an explosion or fire, resulting in serious injury or even death. Areas with a potentially explosive atmosphere are often, but not always, marked clearly. Potential areas may include: fuelling areas (such as gas stations); below deck on boats; fuel or chemical transfer or storage facilities; vehicles using liquefied petroleum gas (such as propane or butane); areas where the air contains chemicals or particles (such as grain, dust, or metal powders); and any other area where you would normally be advised to turn off your vehicle engine.

#### USING CONNECTORS AND PORTS.

Never force a connector into a port. Check for obstructions on the port. If the connector and port don't join with reasonable ease, they probably don't match. Make sure that the connector matches the port and that you have positioned the connector correctly in relation to the port.

#### KEEPING NABI WITHIN ACCEPTABLE TEMPERATURES.

Avoid dramatic changes in temperature or humidity when using nabi, as condensation may form on or within nabi. Don't leave nabi in your car, because temperatures in parked cars can exceed acceptable temperatures. When you're using nabi, it is normal for nabi to get warm. The exterior of nabi functions as a cooling surface that transfers heat from inside the unit to the cooler air outside.

#### KEEPING THE OUTSIDE OF NABI CLEAN.

Handle your nabi with care to maintain its appearance. To clean nabi, unplug all cables and turn off nabi (press the Power button). Then use a soft, slightly damp, lint-free cloth. Avoid getting moisture in openings. Don't use window cleaners, household cleaners, aerosol sprays, solvents, alcohol, ammonia, or abrasives to clean nabi. To clean the screen, simply wipe nabi with a soft, lint-free cloth to remove oil left by your hands.

#### EXPOSURE TO RADIO FREQUENCY ENERGY.

nabi contains radio transmitters and receivers. When on, nabi sends and receives radio frequency (RF) energy through its antenna. nabi is designed and manufactured to comply with the limits for exposure to RF energy set by the Federal Communications Commission (FCC) and Industry Canada (IC). However, to reduce exposure to RF energy, keep the device as far away as possible from the user during operation, turn off WiFi/Bluetooth radios, or reduce the amount of time spent using the device.

**Additional Information.** For more information from the FCC about exposure to RF energy, please visit: [www.fcc.gov/oet/rfsafety](http://www.fcc.gov/oet/rfsafety). For more information from IC about exposure to RF energy, please consult Safety Code 6, available at: [http://www.hc-sc.gc.ca/ewh-semt/pubs/radiation/radio\\_guide-lignes\\_direct-eng.php](http://www.hc-sc.gc.ca/ewh-semt/pubs/radiation/radio_guide-lignes_direct-eng.php).

For information about the scientific research related to RF energy exposure, see the EMF Research Database maintained by the World Health Organization at: [www.who.int/emf](http://www.who.int/emf).

#### RADIO FREQUENCY INTERFERENCE.

Radio Frequency Interference. Radio-frequency emissions from electronic equipment can negatively affect the operation of other electronic equipment, causing them to malfunction. Although nabi is designed, tested, and manufactured to comply with regulations governing radio frequency emission in countries such as the United States, the wireless transmitters and electrical circuits in nabi may cause interference in other electronic equipment. Therefore, please take the following precautions:

**Aircraft.** Use of nabi may be prohibited while traveling in aircraft.

**Vehicles.** Radio frequency emissions from nabi may affect electronic systems in motor vehicles. Check with the manufacturer or its representative regarding your vehicle.

**Pacemakers.** Persons with pacemakers should always keep nabi more than 15 cm (6 inches) from the pacemaker when the wireless device is turned on.

**Other Medical Devices.** If you use any other personal medical device, consult the device

manufacturer or your physician to determine if it is adequately shielded from radio frequency emissions from nabi.

**Health Care Facilities.** Hospitals and health care facilities may use equipment that is particularly sensitive to external radio frequency emissions. Turn nabi off when staff or posted signs instruct you to do so.

If you have any reason to suspect that interference is taking place, turn nabi off immediately (press the Power button).

### FCC COMPLIANCE

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**WARNING:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device meets the FCC Radio Frequency Emission Guidelines and is certified with the FCC. This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the Federal Communication Commission (FCC) Rules. These limits are designed to provide reasonable protection against harmful interference in residential installation. This device generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the equipment to an outlet on a circuit different from the one the receiver is connected to.
- Consult an experienced radio/TV technician for help.

Please refer to the physical device for applicable FCC ID.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

To prevent possible hearing damage, do not listen at high volume levels of long periods. Maximum earphone output voltage <math><150\text{mV}</math>.

### Radiation Exposure Statement:

This equipment complies with FCC / Canada radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This symbol indicates that this product must not be disposed of with your household waste. It is your responsibility to dispose of your waste equipment by handing it over to a designated collection point for the recycling of waste electrical and electronic equipment.

The separate collection and recycling of your waste equipment will help conserve natural resources and ensure that it is recycled in a manner that protects the environment. For more information about where you can drop off your waste equipment for recycling, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

For more information on recycling, please visit: [www.nabi.com/recycle](http://www.nabi.com/recycle).

### INDUSTRY CANADA COMPLIANCE

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus set out in the interference-causing equipment standard entitled "Digital Apparatus," ICES-003 of Industry Canada.

Please refer to the physical device for applicable IC ID.

### FUHU ONE (1) YEAR LIMITED WARRANTY

This warranty is extended only to the original end user purchaser, or the person who is receiving the product as a gift with proof of purchase, and shall not be extended to any other person or transferee.

**Warranty.** Fuhu warranties for one year from the date of sale to the consumer that the nabi is of merchantable quality and that it conforms to applicable specifications.

In no event does the limited warranty cover failures resulting from improper or unreasonable use or maintenance; failure to follow operating instructions; accidents; excess moisture; insects; lightning; power surges; connections to improper voltage supply; unauthorized alteration or modification of the product; damages caused by inadequate packing or shipping procedures; loss of, damage to, or corruption of stored data; damages caused by use with non-nabi products; products that require modification or adaptation to enable them to operate in any country other than the country for which they were designed, manufactured, approved, and/or authorized, or repair of products damaged by these modifications; products purchased from unauthorized dealers; and any degradation that occurs naturally through normal use.

### Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

The provisions of this limited warranty are in lieu of any other warranty, whether express or implied, written or oral, including any warranty of merchantability or fitness for a particular purpose. Fuhu's maximum liability shall not exceed the actual purchase price paid by you for the product. In no event shall Fuhu be liable for loss of, damage to, or corruption of stored data, or for special, incidental, consequential, or indirect damages howsoever caused including without limitation the replacement of equipment and property, and any costs of recovering, programming, or reproducing any program or data stored in or used with your nabi product.

This warranty is void if the label bearing the serial number has been removed or defaced.

This limited warranty gives you specific legal rights, and you also may have other rights that vary from state to state or country to country. Some places do not allow limitations on implied warranties or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

If you discover that your nabi is not of merchantable quality and fails to conform to its applicable specifications we will, at our option, refund the purchase price, or repair or replace the product, using new or refurbished components within a reasonable time during the warranty period. The costs of shipping or transporting the product (including to and from Fuhu), any insurance or any import fee duties and taxes are the sole responsibility of the consumer and will not be covered by this warranty.

**Obtaining Warranty Service.** To obtain warranty service:

- Contact a Fuhu Authorized Service Provider. For service information, please visit: [www.nabi.com/support](http://www.nabi.com/support).
- Label and ship product with freight prepaid to the address provided by a Fuhu Authorized Service Provider.
- Place any necessary return authorization number prominently on the outside of carton. Cartons not bearing a return authorization number, where required, may be refused.

For more information and to register your product, please visit: [www.nabi.com/register](http://www.nabi.com/register).
