

iHome Beauty LUX POWER

Model: iCVBTW11

Vanity Speaker + Wireless Charging Quick Start Guide

QUESTIONS? visit www.ihome.com

WHAT'S INCLUDED:

LUX POWER
Vanity Speaker

Removable Detail Mirror

The back of the 10x magnifying detail mirror has SimpleStick™ micro suction material for easily attaching and detaching almost anywhere. If necessary, clean SimpleStick material with office tape.

AC Adapter

Cleaning Cloth

Use the included cleaning cloth to keep the large surface and detail mirror smudge free.

1

GETTING STARTED

Connecting the Unit

Connect the included AC adapter to the DC jack located on the back of the unit and connect the other end to a working wall outlet.

Connecting to Bluetooth

- Press the **Power Button** to turn the vanity speaker ON.
- Turn on your Bluetooth device and make it 'discoverable' by turning on Bluetooth mode.
- Press and hold the **Bluetooth Pairing Button** on the vanity speaker for 2 seconds to enter pairing mode.
- Select 'LUX POWER' on your device's Bluetooth menu to connect!

Note: If no audio is playing for 15 minutes, the unit will automatically power off.

2

FEATURES & FUNCTIONS

Power Button

Press to turn vanity speaker ON or OFF

Light Button

- Press to turn mirror light ON or OFF
- Press repeatedly to adjust light modes

Bluetooth Pairing Button

- Press and hold to enter pairing mode
- Select 'LUX POWER' on your device to connect

Play/Pause/Speakerphone Button

- Press to play/pause Bluetooth audio
- Press to answer/end Bluetooth calls
- Press and hold to reject an incoming call
- Press and hold to activate Siri/Google

Bluetooth Pairing LED

- Flashes white to indicate when unit is in pairing mode
- Glow solid white to indicate Bluetooth is connected

Wireless Charging LED

White LED indicates wireless charging status (see page 5)

USB Charging Port (1A)

Connect a standard USB cable (not included) to charge devices

DC Jack

Connect included AC adapter to power source

3

ADJUSTING LIGHT MODES

Using the Stem

- Tap the stem to turn the light ON or OFF.
- Tap the stem repeatedly to cycle through brightness levels: High, Mid, Low, and OFF.

Using the Light Button

- Press the **Light Button** to turn the mirror light ON or OFF.
- Press the **Light Button** repeatedly to cycle through brightness levels: High, Mid, Low, and OFF.

Note: Power and Light features operate separately:

- Press the **Power Button** to access audio features including Bluetooth.
- Press the **Light Button** to access light modes and brightness levels.

CHARGING VIA USB PORT

- Connect a standard USB cable (not included) to the **USB Charging Port** located on the back of the mirror.
- Connect the other end to your device to begin charging.

4

WIRELESS CHARGING

Supports:

- Qi compatible phones (also works with plastic cases up to 3mm thick)
 - Apple AirPods
- Place Qi compatible device face-up on the charging rest ⚡ located on the base of the mirror as shown below. Make sure the center of the device is aligned over the center of the charging rest.

Charging will begin upon contact. The Wireless Charging LED located on the front of the mirror will indicate charging status:

Wireless Charging LED

- Rapid blinking LED: Device is not charging (reposition device)
Slow blinking LED: Device is charging
Solid LED: Device is fully charged

(LED may continue to blink slowly when iOS devices are fully charged.)

CAUTION: Remove phone's metal protective case before charging. Do not place magnetic or metal objects on charger during charging. Qi compatible phones with metallic looking finishes will charge normally.

Note: The wireless charging process generates heat that may cause phones and chargers to be warm to the touch. This is natural for wireless charging devices.

5

IMPORTANT SAFETY INSTRUCTIONS

When used in the directed manner, this unit has been designed and manufactured to ensure your personal safety. However, improper use can result in potential electrical shock or fire hazards. Please read and follow all safety and operating instructions carefully before installation and use, and keep these instructions handy for future reference. Take special note of all warnings listed in these instructions and on the unit.

- Water and Moisture - The unit should not be used near water. For example: near a bathtub, washbowl, kitchen sink, laundry tub, swimming pool or in a wet basement.
- Ventilation - The unit should be situated so that its location or position does not interfere with its proper ventilation. For example, it should not be situated on a bed, sofa, rug or similar surface that may block ventilation openings. Also, it should not be placed in a built-in installation, such as a bookcase or cabinet, which may impede the flow of air through the ventilation openings.
- Heat - The unit should be situated away from heat sources such as radiators, heat registers, stoves or other appliances (including amplifiers) that produce heat.
- Power Sources - The unit should be connected to a power supply only of the type described in the operating instructions or as marked on the appliance. Only use the AC adapter that came with the unit.
- Power-Cable Protection - Power supply cables should be routed so that they are not likely to be walked on or pinched by items placed upon or against them. It is always best to have a clear area from where the cable exits the unit to where it is plugged into an AC socket.
- Cleaning - The unit should be cleaned only as recommended. See the Maintenance section for cleaning instructions.
- Objects and Liquid Entry - Care should be taken so that objects do not fall and liquids are not spilled into any openings or vents located on the product.
- Attachments - Do not use attachments not recommended by the product manufacturer.
- Lightning and Power Surge Protection - Unplug the unit from the wall socket and disconnect the antenna or cable system during a lightning storm or when it is left unattended and unused for long periods of time. This will prevent damage to the product due to lightning and power-line surges.
- Damage Requiring Service - The unit should be serviced by qualified service personnel when:
 - the power supply cable or plug has been damaged.
 - objects have fallen into or liquid has been spilled into the enclosure.
 - the unit has been exposed to rain.
 - the unit has been dropped or the enclosure damaged.
 - the unit exhibits a marked change in performance or does not operate normally.
- Periods of Nonuse - If the unit is to be left unused for an extended period of time, such as a month or longer, remove batteries before storage.
- Servicing - The user should not attempt to service the unit beyond those methods described in the user manual. Service methods not covered in the operating instructions should be referred to qualified service personnel.
- Magnetic Interference: This product's speakers contain powerful magnets which could cause interference or damage to sensitive equipment such as hard drives, CRT televisions and monitors, as well as medical, scientific, and navigational devices. Keep this unit away from these products at all times.
- Only use attachments/accessories specified by the manufacturer. This product is suitable for use in tropical and/or moderate climates.
- No naked flame sources, such as lighted candles, should be placed on the apparatus.
- WARNING: To reduce the risk of fire or electric shock, do not expose this product to rain or moisture.
- The mains plug of power adaptor is used as the disconnect device, it shall remain readily operable.
- Clean only with dry cloth.

FCC INFORMATION

Model: iCVBTW11

FCC ID: EMOICVBTW11A
IC: 986B-ICVBTW11A

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. CAUTION : Exposure to Radio Frequency Radiation. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

This device complies with Part 15 of the FCC Rules, operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

- Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAN ICES-3 (B)/NMB-3(B)

Canada Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- This device may not cause interference.
 - This device must accept any interference, including interference that may cause undesired operation of the device.
- The device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS-102 RF exposure, users can obtain Canadian information on RF exposure and compliance. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body. This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- L'appareil ne doit pas produire de brouillage;
 - L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
- Le dispositif rencontre l'exemption des limites courantes d'évaluation dans la section 2.5 de RSS 102 et la conformité à l'exposition de RSS-102 rf, utilisateurs peut obtenir l'information canadienne sur l'exposition et la conformité de rf. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps. Cet équipement est conforme aux limites d'exposition aux radiations IC CNR-102 établies pour un environnement non contrôlé.
