

Omni-Directional Mobile Mount UHF Antenna

Applications: Vehicle mobile mount for roof or trunk. When trunk mounted the antenna extends above the roofline to eliminate the "shadow effect" caused by the passenger compartment. If antenna is roof mounted it will extend the antenna above the light bar.

Antenna Type: Omni-Directional.

Frequency: 896 to 940 MHz

Polarization: Vertical

Impedance: 50 ohms

Gain: 7 dBi (5 dBd)

VSWR: < 1.5 to 1

Power: 125 watts

Antenna Material: Molded polymer

Mounting Hardware: Included

Antenna Connector: TNC-mrp connector with 17 feet integral LMR-195 cable

Antenna Mount Hole: 3/4 in.

Antenna Envelope: 32 in. length.

Weight: < 1 lb.
