Subject: Request for certification
FCC ID: EO9CCU100TB

Dear Sir/Madam:

Itron hereby requests a new certification for a Automatic Meter Reading module for a utility gas meter, FCC ID:EO9CCU100TB.

Being the 915MHz FHSS radio in the models listed above has not changed from the previous certification EO9CCU100TA, those test reports are still current and valid and are included in this certification request. The WiFi device has been changed to a different vendor; the WiFi has different RF Characteristics. Because of the change to the WiFi device, this equipment is not electrically identical to the CCU100TA, however the 915MHz FHSS radio is electrically identical to the CCU100TA.

Sincerely,

A handwritten signature in black ink that reads "Jay R. Holcomb". The signature is written in a cursive, flowing style.
