Subject: Request for certification
FCC ID:E09DCU5310

Dear Sir/Madam:

Itron hereby requests a Class 2 Permissive Change for an Automatic Meter Reading device for mobile reading of utility meters, FCC ID:E09DCU5310. The change is to allow for transmitting slightly longer messages from the original certification increasing the Time of Occupancy (ToO) and decreasing the Duty Cycle Correction. With this increase in message length ToO and all radiated spurious will remain in compliance. All other parameters and the RF performance remains the same as before.

Sincerely,

A handwritten signature in black ink that reads "Jay R. Holcomb".
