Fremont, CA 94538, USA

Dear FCC OET,

The grant for FCC ID EP9 has been issued via TCB filing; however we have made some minor changes to this device prior to marketing and need to update the application for certification with new RF exposure exhibits. We kindly request that this application be dismissed and we will re-file our application for device approval once the revised exhibits have been prepared.

We affirm that we have not sold any devices marked with the FCC ID, either in the US or anywhere else.

Best Regards,

Sam Everett
