Technical Description

This Transmitter is a one button hand held transmitter, which can turn the gas fireplace on/off. The A model series has no display, only the on/off button. The B model series has the display which shows the current room temperature and low battery indicator.

South East Asia Ltd. would like to add the two models listed below to their current FCC ID: EPK9575TX for the above described Acumen models: TX01A, TX02A, TX03A, TX04A TX01B, TX02B, TX03B and TX04B.

Trade Name	Model
Acumen	FDC-501
Acumen	FDC-502

These models are the same as the A and B model series with the exception that a manual Child Proof switch was added to the FDC-502 with no change in the software.
