

Response to TCB Findings

The antenna part number listed on Pg 8 of the manual (PDF) does not match the number supplied on the specifications sheet of it. Please clarify.

Response from Crestron:

The part number in the manual is the Crestron Part number, the number customers would use to order the antenna from Crestron. We do not manufacture the antenna, the specification provided for the antenna is from the original Equipment manufacturer.

Our Material Database record relates the two part numbers as :

2001016 ANXX2400R00MHZ-2 ANTENNA, 2400.00MHZ, 1/4 WAVE, REVERSE
POLARITY, FEMALE ACE-2400NF ACE ANTENNA COMPANY
