<b>Approval Type</b>	Original
<b>Equipment Class</b>	DXT Part 15, Low Power Transceiver, Rx Verified
<b>Rule Part</b>	15.249 (15C)

**Overview**

This application is for an original grant of the model 6476 Latitude Communicator, which contains a transceiver operating at 916.5 MHz under FCC 47 Cfr part 15.249. The device is used to communicate with implantable devices. The device contains a co-located, previously approved Bluetooth radio module FCC ID: POOWML-C40, which cannot operate at the same time as the 916.5 MHz radio. Whenever the 916.5 MHz radio is activated the Bluetooth radio is first disabled.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

**Recommendation**

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
