Re: Waiver Order DA 11-1427 and Notice of FDA Approval on November 17, 2011 for
replacements for Cognis and Teligen product lines (ESCCRMN11906)

Federal Communications Commission:

The FCC waiver Order (DA 11-1427) released on August 23, 2011 specifies at paragraph 13 that Boston Scientific shall, in connection with its application for equipment certification for the FCC rules-compliant replacement devices (FCC ID ESCCRMN11906), provide to the Commission the date of final FDA approval of the replacement devices (to align the FCC waiver term with FDA approval).

Final FDA approval for the replacements for the Cognis and Teligen devices was received on November 17, 2011.¹

Please contact me or attorney Jeff Cook (763.494.2645) with any questions.

Sincerely,

John Rymkiewicz
Fellow Electrical Engineer
Boston Scientific CRM
(651) 582 6869

¹ Under the ordering clause in paragraph 12 of the waiver Order, Boston Scientific may continue to manufacture and market the Cognis and Teligen product lines until twelve months after FDA approval of the replacement devices.
