Package Contents

- Rugged Portable Speaker
- USB Charging Cable
- Carabiner
- User's Guide

Features

- No cord to tie you down
- Water-resistant
- Portable, for outdoor use
- Stereo sound with powerful bass performance
- Rechargeable battery capable of 6-hour playtime
- Compatible with most Bluetooth-enabled devices

Caution:

- Do not operate the speaker if it has been damaged in any way.
- Do not place heavy objects on top of the speaker.
- To avoid electromagnetic interference, do not place the speaker on top of a TV or other electrical appliance.

Charge Your Speaker

Using the USB charging cable, connect your speaker's **DC 5V** jack to your PC or a USB charger (not included).

- The charging indicator lights red during charging and turns off when charging is complete.
- A full charge takes about 3 hours. When fully charged, the speaker is capable of operating for up to 6 hours at medium volume levels. Using a USB charger with output less than 5V 500mA can prolong the charging time.
- In Bluetooth mode, if the battery power is low, the speaker will sound "Battery low" to alert you.

Lithium Battery Notes

- Follow the instructions for charging the speaker.
- Recycle lithium batteries. Do not dispose in the trash.
- Do not burn or bury batteries. Do not puncture or crush. Do not disassemble.
- If the electrolyte in the cells gets on your skin, thoroughly wash with soap and water. If it gets in your eyes, rinse thoroughly with cool water. Immediately seek medical attention.

Use Your Speaker

1. Press and hold the **⏻** button to turn on the speaker. A voice sounds "Power on".

The Bluetooth indicator flashes red and blue, indicating the speaker is searching for Bluetooth devices or trying to reconnect to the previously connected device.

2. Activate your device's Bluetooth function (refer to your device's user's guide) and search for devices.

When **OUTBOUND 4000592** appears in the Bluetooth devices list, pair it to your device. If you are prompted for a PIN, enter 0000. A voice sounds "You are now paired, enjoy."

3. You can control your speaker through your device or with the speaker's buttons.
 - Press **▶||** to start/pause playback.
 - Press **+** and **-** to adjust volume.
 - To reset the speaker, press **▶||** twice while the speaker is searching for Bluetooth devices.

4. To turn off the speaker, press and hold **⏻** again until you hear "Power off".

Note: If your device moves too far from the speaker, the Bluetooth connection may break. The speaker will reconnect if you move the device close to the speaker within 15 minutes.

Disconnect Your Device

Press and hold **▶||** until you hear "Disconnected". The speaker disconnects the current Bluetooth connection and starts searching for another Bluetooth device.

Device Not Pairing?

Many Bluetooth-enabled devices, such as speakers, remember the most recently paired source (music, smartphone, etc.) and automatically reconnect when turned on. This is convenient, but can prevent you from connecting to a new source.

If you can't pair your speaker, you may need to disconnect it from its previous source. See "**Disconnect Your Device**" on this page.

Use AUX

You can use a stereo audio cable (not included) to connect your device to the speaker's **AUX** jack.

Note:

- The **AUX** jack accepts audio cables with plug jacket smaller than 9mm in diameter.
- Bluetooth is automatically deactivated when **AUX** is connected.
- The speaker controls are disabled for **AUX** connections. Use your device controls to control playback.

Attaching Your Carabiner

You can use your carabiner to attach the speaker to your travel bag to enjoy music while you are on the road.

FCC Information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

7

- Consult the dealer or an experienced radio/TV technician for help.

If you cannot eliminate the interference, the FCC requires that you stop using your product. Changes or modifications not expressly by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
