Replace the battery

To replace the battery, pull out the battery compartment cover, and then lift up the battery. Follow the steps above to install the new battery.

Connect and charge the Dattery

- Use only the power adapters supplied with this
- Make sure the electrical outlets are not controlled
- by wall switches. · The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if they are plugged into a ceiling, under-the-table or
- cabinet outlet. Make sure the parent unit, the baby unit and the power adapter cords are out of reach of children.

Connect the baby monitor

Parent unit main menu icons

Briahtness

You can change the brightness of the parent unit screen.

LCD screen off timer You can set a specific time to

screen off your parent unit.

Temperature

You can turn on the **Temperature** alert tone so that the parent unit beeps whenever the room emperature detected by the baby unit falls outside of the desired emperature range.

You can also set the temperature format to display the real-time emperature in baby's room, or set the maximum/minimum temperature limit for alerts.

Lullaby

You can select, play, or stop a lullaby.

VOX sensitivity

With this feature, you can choose to hear sounds from the baby unit all the time, or to hear sounds that exceed a certain level. You can use the parent unit to adjust the microphone sensitivity of your baby unit. The higher the sensitivity level, the more sensitive the baby unit is in detecting sounds for transmitting to the parent unit.

Sound-activated screen Automatically turns on the parent unit screen when a baby unit detects a sound after the screen is turned off. When no sound is detected, the screen is

- automatically off to save power. Patrol mode
- You can monitor your baby in PATROL mode.

Charge the parent unit battery

When you have connected the parent unit and installed its battery for the first time or after power outage, the parent unit powers on automatically. The battery icon indicates the battery status (see the following table).

PNOTES

- The parent unit battery is fully charged after 11 hours of continuous charging. It takes longer to charge the battery when the parent unit is turned on. To shorten the charging
- time, turn the parent unit off while charging. The standby time varies depending on the
- volume level you set, your actual use and the age of the battery.

Battery indicators	Battery status	Action

Before use

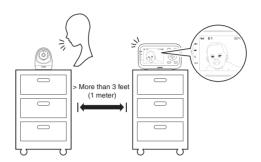

• This baby monitor is intended as an aid. It is not a substitute for proper adult supervision, and should not be used as such

Test your baby monitor

You may test the baby monitor before initial use, and at regular times thereafter.

OCAUTION

 For hearing protection, make sure the parent unit is more than 1 meter (3 feet) away from both baby units. If you hear any high-pitched noise, move the parent unit further until the noise stops. You can also press VOL- on the parent unit to lower or mute the noise.

- 1. Make sure your baby units and parent unit are on.
- 2. The parent unit displays images from the baby unit.
- Speak towards the microphone of the baby unit. You will hear the sound at the parent unit.
- 3. If you have two baby units, press 🚔 at the right side of your parent unit. The screen switches to other baby unit. Then, repeat step 2.

• When the parent unit displays **b** No link to Camera, and the LINK LED light flashes, move the parent unit closer to the baby units (observe the minimum distance of 3 feet/1 meter). You can also check if the baby monitor is connected to a live power socket and switched on

 Increase the speaker volume of the parent unit if you cannot hear the sounds transmitted from the baby units.

Using the baby monitor

Power on or off the baby unit

- Slide the **U** ON/OFF switch up to turn on the baby unit. The **POWER** LED light turns
- Slide the ON/OFF switch down to turn off the baby unit. The **POWER** LED light turns

Power on or off the parent unit

- Press and hold **POWER** to turn on the parent unit. The screen turns on.
- Press and hold POWER again to turn off the parent unit. The screen turns off.

Turn on or off the parent unit screen

You can turn on or off the parent unit screen without powering off the parent unit. You can still hear sound from the baby unit.

- Press and hold LCD ON/OFF on the parent unit to turn off the screen.
- Press any key on the parent unit to turn on the screen again

Screen off timer

You can set the screen off time for the parent unit after it is idle for a specific time interval. When the screen is turned off, you can still hear

- sound from the baby unit.
- 1. Press **MENU** when the parent unit is idle.
- Press ◀ or ► to choose □, then press ▲.
- 3. Press ▼ or ▲ to choose the desired time period to time off screen-(5. / 3. / 3. / 5. / 5. / 5.), then press SELECT to confirm your selection.

Adjust LCD brightness

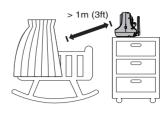

You can change the brightness of the parent unit screen from Level 1 to Level 5. The LCD brightness is preset to Level 3.

- 1. Press MENU when the parent unit is idle.
- 2. Press ◀ or ► to choose 🔅, then press ▲.
- 3. Press ▼ or ▲ to choose the desired level of brightness, then press **SELECT** to confirm your selection.

Positioning the baby monitor

Keep the baby unit out of the reach of your baby. Never place or mount the baby unit inside the baby's crib or playpen

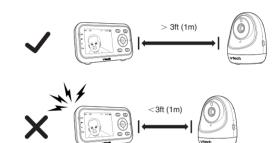

- To avoid interference from other electronic devices, place your baby monitor far away from devices such as wireless routers, microwaves, cell phones and computers.
- 1. Place the baby units more than 1 meter (3 feet) away from your baby.

2. Adjust the angle of the baby unit camera to aim at your baby.

3. Place the parent unit more than 1 meter (3 feet) away from the baby units.

()CAUTION

- The default volume of your parent unit is level 4.
- If you experience high-pitched screeching noise from your baby monitor while positioning:
- Make sure your baby units and parent unit are
- more than 3 feet (1 meter) apart, OR Turn down the volume of your parent unit.

Adjust the sound sensitivity of the baby units

You can choose to hear sounds from the baby units all the time, or to hear sounds that exceed a certain level. You can use the parent unit to adjust the microphone sensitivity of your baby units from Lowest to Highest. The higher the sensitivity level, the more sensitive the baby unit is in detecting sounds for transmitting to the parent unit. The sound sensitivity level is preset to Highest.

Sound sensitivity table for reference

Sensitivity Level		Description
Highest	High sensitivity	Highest VOX sensitivity level The parent unit speaker is constantly on, and you will hear all sounds (including background noises) from your baby's room.
High		High VOX sensitivity level The parent unit speaker turns on for soft babbling and louder sounds from your baby. It remains quiet when your baby sleeps soundly.
Medium		Medium VOX sensitivity level The parent unit speaker turns on for loud babbling and louder sounds from your baby. It remains quiet when your baby makes soft sounds.
Low		Low VOX sensitivity level The parent unit speaker turns on for crying and louder sounds from your baby. It remains quiet when your baby makes soft sounds.
Lowest Low sensitivi		Lowest VOX sensitivity level The parent unit speaker turns on for loud crying or screeching sounds from your baby. It remains quiet when your baby makes soft sounds.

Operating range

The operating range of the baby monitor is up to 1,000 feet (300 meters) outdoors or 160 feet (50 meters) indoors. The actual operating range may vary depending on the environmental conditions and other interferences such as walls, doors and other obstructions.

Overview

Baby unit overview

1. Press **MENU** when the parent unit is idle.

Mesures de sécurité importantes

Lorsque vous utilisez votre appareil, vous devriez toujours suivre certaines mesures de précaution de base afin de réduire les risques d'incendie, d'électrocution et de blessures corporelles, dont ceux qui suivent

- Observez toutes les instructions et mises en garde inscrites sur l'appareil.
- L'installation par un adulte est requise Ce produit a été concu pour être un dispositif d'appoint seulement. Il n'est pas le remplacemen d'une supervision responsable et adéquate par un adulte et ne devrait pas être utilisé comme
- Ce produit n'est pas conçu pour être utilisé en tant que moniteur médical.
- N'utilisez pas cet appareil près de l'eau ni de toute autre source d'humidité, par exemple, près d'une baignoire, cuve à lessive, évier de cuisine, dans un sous-sol humide ni près d'une piscine, dans un soussol humide ou une douche.
- MISE EN GARDE: Il peut y avoir un risque d'explosion si vous utilisez le mauvais type de piles pour l'unité du parent. N'utilisez que le bloc-piles rechargeable inclus ou le bloc-piles de rechange (BT198555/BT298555). N'incinérez pas es piles. Celles-ci risqueraient d'exploser. Jetez les piles usées selon les renseignements suivant le sceau du RBRC®
- sez que les adaptateurs inclus avec (produit. L'utilisation d'un adaptateur dont la polarité ou la tension serait inadéquate risqu d'endommager sérieusement le produit et mettre votre sécurité en péril. Adaptateur de l'unité du bébé Sortie : 5V CC 800mA Adaptateur de l'unité du parent Sortie : 6V CC 500mA
- Lorsqu'ils sont branchés dans une prise de courant, les adaptateurs secteur ont été concus pour être orientés correctement, soit à la verticale ou au plancher. Les broches n'ont pas été concues pour supporter le poids du bloc d'alimentation et le maintenir en place si celuici est branché dans une prise au plafond, sous une table ou dans un meuble
- Pour les PRODUITS À BRANCHER À UNE PRISE DE COURANT, la prise de courant doit être installée près du produit, afin d'assurer une accessibilité sécuritaire à la prise de courant.
- 10. Débranchez ce produit de la prise de courant avant de procéder au nettoyage. N'utilisez pas de nettoyants en aérosols. Utilisez un chiffon humide pour le nettoyer.
- 11. Débranchez les cordons d'alimentation avant de remplacer le bloc-piles. 12. Ne coupez pas les cordons d'alimentation pour
- remplacer les fiches, car ceci peut présenter un danger potentiel

- 13. Ne laissez aucun objet reposer ni appuyer sur le cordon d'alimentation. N'installez pas cet appareil dans un endroit où l'on risque d'écraser le cordon d'alimentation ou de le piétiner.
- 14. Ne faites fonctionner cet appareil qu'avec le type d'alimentation indiqué sur l'étiquette. S vous ne connaissez pas le type d'alimentation que vous possédez à votre domicile, consultez votre marchand ou votre compagnie locale d'électricité. 15. Ne surchargez pas les prises de courant
- murales ni les rallonges électriques. 16. Ne placez pas cet appareil sur un chariot, meuble, trépied, support de montage ni table chancelants.

17. Les trous et ouvertures du boîtier, situés à l'arrière de l'appareil ou sous celui-ci, servent à aérer l'appareil. Pour l'empêcher de surchauffer ne bloquez sous aucun prétexte ces ouvertures et n'empêchez pas l'aération adéquate de l'appareil en le plaçant sur un lit, divan, tapis ou oute autre surface similaire. De même, ne le positionnez pas à proximité ni au-dessus d'une source de chaleur ou d'un calorifère. De plus, ne placez pas l'appareil dans un endroit avant de vous assurer qu'il y ait une bonne circulation

- 18. N'enfoncez jamais d'objets à travers les ouvertures de cet appareil, car ils pourraient entrer en contact avec des points de tension dangereux ou causer des courts-circuits qui peuvent dégénérer en incendies ou en risque d'électrocution. Ne renversez jamais de liquide dans ce produit
- 19. Afin de réduire les risques d'électrocution, ne démontez pas cet appareil, mais apportez-le dans un centre de service autorisé. L'ouverture du boîtier ou le retrait de toutes pièces que contient cet appareil. à l'exception de l'accès autorisé à certaines portes ou ouvertures, risque de vous exposer à des points de tension dangereux ou d'autres dangers. Un remontage incorrect peut par la suite présenter des risques d'électrocution
- 20. Vous devriez tester la réception chaque fois que vous mettez l'appareil en fonction. 21. Examinez les composantes afin de vérifier si
- celles-ci ne sont pas endommagées. 22. Sovez avisé de la perte de la confidentialité lorsque vous utilisez les ondes publiques. Les conversations peuvent être entendues par d'autres moniteurs de bébé, des téléphones
- sans fil, des scanneurs, etc. 23. Les enfants devraient être supervisés afin de vous assurer qu'ils ne jouent pas avec l'appareil
- 24. Le produit n'est pas concu pour être utilisé par des personnes (incluant des enfants) aux capacités physiques, sensorielles ou mentales réduites ou qui manquent d'expérience et de connaissances, à moins qu'on leur ait donné suffisamment de supervision ou d'instructions relativement à l'utilisation de l'appareil par une personne responsable de leur sécurité.

Night vision

The baby unit has infrared LEDs that allow you to see your baby clearly at night or in a dark room. When the baby unit being viewed detects low light levels, the infrared LEDs are switched on automatically. The images from this baby unit is in black and white, and 🥨 appears on screen

ONOTES

• It is normal if you see a short white glare on your parent unit screen as the baby unit is adapting to the dark environmen • When the infrared LEDs are on, the image is in

black and white. This is normal

- Depending on the surroundings and other interfering factors, like lightings, objects, colors and backgrounds, the display resolution may vary Adjust the baby unit's angle or place the baby unit at a higher level to prevent glare and blurry display.

Mount the baby unit (optional)

Your baby monitor comes ready for tabletop use. You can also choose to mount your baby monitor on the wall. See Mount the baby unit (optional) in the Quick Start Guide for the wall mounting instructions.

General product care

To keep this product working well and looking good, ollow these guidelines

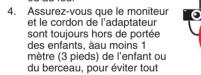

- Avoid putting it near heating appliances and devices that generate electrical noise (for example, motors or fluorescent lamps).
- DO NOT expose it to direct sunlight or moisture. Avoid dropping the product or treating it roughly.
- Clean with a soft cloth.
- DO NOT immerse the parent unit and the baby unit in water and do not clean them under the tap. • DO NOT use cleaning spray or liquid cleaners.
- Make sure the baby unit and parent unit are dry before you connect them to the mains again.

Storage

When you are not going to use the baby monitor for some time, remove the rechargeable battery from the parent unit. Store the parent unit, the baby unit and the adapters in a cool and dry place.

Mises en garde

- Utilisez et entreposez le produit à une température entre 0° C (32°F) et 40°C (104° F). 2. N'exposez pas cet appareil à des froids ou des chaleurs extrêmes, ainsi qu'à la lumière directe
- du soleil. Ne l'installez pas près d'une source de chauffage. 3. Le bloc-piles ne doit pas être exposé à la
- chaleur excessive telle que la lumière du soleil ou au feu.

- risque de strangulation. Ne jamais placer le moniteur à l'intérieur du berceau ou du parc de bébé. Ne jamais couvrir e moniteur ou l'unité (s) portative avec un article tel une serviette ou une couverture.
- D'autres équipements électroniques peuvent produire des interférences sur votre moniteur vidéo et audio. Tentez d'installer votre moniteur vidéo ou audio à l'écart des appareils électroniques tels que des routeurs sans fil. radios, téléphones cellulaires, interphones, moniteurs, téléphones, ordinateurs personnels, électroménagers et téléphones sans fil.

Stimulateurs cardiaques implantés dans l'organisme

Les simulateurs cardiaques (ne s'applique qu'aux dispositifs numériques sans fil)

L'organisme 'Wireless Technology Research, LLC (WTR)', une firme de recherche indépendante. a mené une évaluation pluridisciplinaire des interférences entre les téléphones sans fil portatifs et les stimulateurs cardiagues implantés dans l'organisme. Appuyée par l'Administration des aliments et drogues (FDA) des États-Unis, la firme WTR recommande aux médecins

Avis aux détenteurs de stimulateurs cardiaques Vous devriez maintenir les dispositifs sans fil à

au moins six pouces du simulateur cardiaque. • Ils ne doivent PAS placer le téléphone sans fil directement sur le stimulateur cardiaque, tel que dans une poche de chemise, lorsque celui-ci est en marche.

L'étude effectuée par l'organisme WRS n'a pas identifié de risque pour les détenteurs de simulateurs cardiaques causés par les gens qui utilisent dispositifs sans fil à proximité de ceux-ci.

Champs électromagnétiques (EMF) Ce produit de VTech est conforme à toutes les normes se rapportant aux champs électromagnétiques (EMF) standard. Si vous le manipulez correctement en suivant les instructions de ce guide, son utilisation sera sécuritaire pendant de nombreuses années, selon les meilleures évidences scientifiques dont nous disposons auiourd'hui.

Frequently asked questions

Below are the questions most frequently asked about the baby monitor. If you cannot find the answer to your question, visit our website at www.vtechphones.com, or contact 1 (800) 595-9511 for customer service.

(,	.	
Why does the baby monitor not respond normally?	 Try the following (in the order listed) for common cure: 1. Disconnect the power to the baby units and the parent unit. 2. Remove the batteries in the parent unit. Then install the batteries again. 3. Wait a few seconds before connecting power back to the baby units and the parent unit. 4. Turn on the baby units and the parent unit. 5. Wait for the parent unit to synchronize with the baby units. Allow up to one minute for this to take place. 	Why does the parent unit beep? Why does	
Why don't the power-on light of the baby unit and parent unit go on when I	Perhaps the parent unit is not connected to the power. may be too low or off. Press VOL+ to increase the volume. baby cry? You may have set a low sound sensitivity level. See Adjust the sound sensitivity of the baby

unit to set to a higher level. The baby units may be out of range. Move the parent unit close to the baby units (but not less than 3 feet)

Other electronic products may cause interference with your bab monitor. Try installing your baby monitor as far away from these electronic devices as possible.

portant safety instruction

When using your equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and

injury, including the following: . Follow all warnings and instructions marked on the product.

Adult setup is required.

- This product is intended as an aid. It is not a substitute for responsible and proper adult supervision and should not be used as such. 4. This product is not intended for use as a medical monitor
- 5. Do not use this product near water. For example do not use it next to a bath tub, wash bowl kitchen sink, laundry tub or swimming pool, or in a wet basement or shower.
- 6. CAUTION: Use only the batteries indicated in this manual. There may be a risk of explosion if a wrong type of battery is used for the parent unit. Use only the supplied rechargeable battery or replacement battery pack (BT198555/ 3T298555) for the parent unit. Do not dispose o batteries in a fire. They may explode. Dispose of used battery according to the information in The RBRC[®] seal.
- Use only the adapters included with this product Incorrect adapter polarity or voltage can seriously damage the product. Baby unit power adapter: Output: 5V DC 800mA
- Parent unit power adapter: Output: 6V DC 500mA. 8. The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place f it is plugged into a ceiling, under-the-table or cabinet outlet
- . For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily accessible.
- 10. Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners Use a damp cloth for cleaning.
- 11. Unplug the power cords before replacing 12. Do not cut off the power adapters to replace
- them with other plugs, as this causes a hazardous situation 13. Do not allow anything to rest on the power cords.
- Do not install this product where the cords may be walked on or crimped
- 14. This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home, consult your dealer or local power company.
- 15. Do not overload wall outlets or use an extension
- 16. Do not place this product on an unstable table shelf, stand or other unstable surfaces.

Other limitations

- 17. This product should not be placed in any area where proper ventilation is not provided. Slots and openings in the back or bottom of this product are provided for ventilation. To protect nem from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heat register.
- 18. Never push objects of any kind into this product through the slots because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product.
- 19. To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility. Opening or remove parts of the product other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassemblin can cause electric shock when the product is subsequently used.
- 20. You should test the sound reception every time you turn on the units or move one of the components
- 21. Periodically examine all components for damage.
- 22. Be aware of possible loss of privacy while using public airwayes. Conversations may be picked up by other nursery monitors, cordless phones, scanners, etc.
- 23. Children should be supervised to ensure that they do not play with the product
- 24. The product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

SAVE THESE INSTRUCTIONS

Cautions

- 1. Use and store the product at a temperature etween 32°F and 104°F
- 2. Do not expose the product to extreme cold, heat or direct sunlight. Do not put the product close to a heating source
- Batteries should not be exposed to excessive
- heat such as bright sunshine or fire. **Warning**—Strangulation Hazard—Children have STRANGLED in cords. Keep this cord out of the reach of children (more than 3 ft (0.9 m) away). Do not remove this

 Other electronic products may cause interference with your baby monitor. Try installing your baby monitor as far away from these electronic devices as possible wireless routers, radios, cellular telephones, intercoms, room monitors, televisions

cordless telephones. Precautions for users of implanted cardiac pacemakers

personal computers, kitchen appliances and

Cardiac pacemakers (applies only to digital cordless devices):

Wireless Technology Research, LLC (WTR), an independent research entity, led a multidisciplinary evaluation of the interference between portable wireless devices and implanted cardiac

pacemakers. Supported by the U.S. Food and Drug Administration, WTR recommends to physicians that

- Pacemaker patients
- Should keep wireless devices at least six inches from the pacemaker
- · Should NOT place wireless devices directly over the pacemaker, such as in a breast pocket, when it is turned ON.

WTR's evaluation did not identify any risk to bystanders with pacemakers from other persons using wireless devices.

Electromagnetic fields (EMF)

This VTech product complies with all standards regarding electromagnetic fields (EME). If handled properly and according to the instructions in this user's manual, the product is safe to be used based on scientific evidence available today

The RBRC[®] seal

The RBRC® seal on the Ni-MH battery indicates that VTech Communications, Inc. is voluntarily participating in an industry program to collect and recycle these batteries at the end of their useful lives, when taken out of service within the United States and Canada.

The RBRC[®] program provides a convenient alternative to placing used Ni-MH batteries into the trash or municipal waste, which may be illegal in your area.

VTech's participation in RBRC® makes it easy for you to drop off the spent battery at local retailers participating in the RBRC[®] program or at authorized VTech product service centers. Please call 1 (800) 8 BATTERY® for information on Ni-MH battery recycling and disposal bans/restrictions in your area. VTech's involvement in this program is part of its commitment to protecting our environment and conserving natural resources.

RBRC® and 1 (800) 8 BATTERY® are registered trademarks of the **Rechargeable Battery Recycling** Corporation.

FCC and IC regulations

FCC Part 15

This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications nission (FCC) rules. These requirements are intended to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful nterference to radio communications. However there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna. Increase the separation between the equipment
- and receiver. • Connect the equipment into an outlet on a
- connected Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications to this equipment not expressly approved by the party esponsible for compliance could void the user's authority to operate the equipment This device complies with Part 15 of the FCC rules Operation is subject to the following two conditions

5. Product whose warranty/quality stickers, product serial number plates or electronic serial numbers have been removed, altered or rendered illegible;

6. Product purchased, used, serviced, or shipped for repair from outside the United States of America or Canada, or used for commercial or institutional purposes (including but not limited to Products used for rental purposes); or

7. Product returned without a valid proof of purchase (see item 2 on the next page); or 8. Charges for installation or set up, adjustment of

customer controls, and installation or repair of systems outside the unit.

How do you get warranty service?

To obtain warranty service in the USA, please visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to www.vtechcanada.com or call 1 (800) 267-7377.

NOTE: Before calling for service, please review the user's manual - a check of the Product's controls and features may save you a service call.

Except as provided by applicable law, you assume the risk of loss or damage during transit and transportation and are responsible for delivery or handling charges incurred in the transport of the Product(s) to the service location. VTech will return repaired or replaced Product under this limited warranty. Transportation, delivery or handling charges are prepaid. VTech assumes no risk for damage or loss of the Product in transit. If the Product ailure is not covered by this limited warranty, or proof of purchase does not meet the terms of this limited warranty, VTech will notify you and will request tha you authorize the cost of repair prior to any further epair activity. You must pay for the cost of repair and return shipping costs for the repair of Products that

are not covered by this limited warranty. What must you return with the Product to get

warranty service? 1. Return the entire original package and contents including the Product to the VTech service location along with a description of the malfunction or difficulty; and

2. Include a "valid proof of purchase" (sales receipt) identifying the Product purchased (Product model) and the date of purchase or receipt; and

3. Provide your name, complete and correct mailing

address, and telephone number.

This warranty is the complete and exclusive

agreement between you and VTech. It supersedes all other written or oral communications related to this Product. VTech provides no other warranties for this Product. The warranty exclusively describes all of VTech's responsibilities regarding the Product. There are no other express warranties. No one is authorized to make modifications to this limited warranty and you should not rely on any such modification.

State/Provincial Law Rights: This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state or province to province.

Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase Some states/provinces do not allow limitations on how long an implied warranty lasts, so the above mitation may not apply to you. In no event shall VTech be liable for any indirect, special, incidental consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cos of substitute equipment, and claims by third parties resulting from the use of this Product. Some states provinces do not allow the exclusion or limitation o ncidental or consequential damages, so the above limitation or exclusion may not apply to you.

Please retain your original sales receipt as proof of purchase.

echnical specifications

Frequency control	Crystal controlled PLL synthesizer
Transmit frequency	Baby unit: 2405 - 2475 MHz Parent unit: 2405 - 2475 MHz

circuit different from that to which the receiver is

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

To ensure safety of users, the FCC has established criteria for the amount of radio frequency energy that can be safely absorbed by a user or bystande according to the intended usage of the product. This product has been tested and found to comply with ne FCC criteria. The baby unit shall be installed and used such that parts of all persons' body are maintained at a distance of approximately 8 in (20 cm) or more. The transmitter and antenna of the parent unit shall be held at least 1 in (2.5 cm) from vour face.

This Class B digital apparatus complies with Canadian requirement: CAN ICES-3 (B)/NMB-3(B)

Industry Canada

This device complies with Industry Canada licenceexempt RSS standard(s) Operation is subject to the following two conditions

(1) this device may not cause harmful interference. and (2) this device must accept any interference including interference that may cause undesired operation

The term "IC:" before the certification/registration number only signifies that the Industry Canada technical specifications were met.

This product meets the applicable Industry Canada technical specifications

RF radiation exposure statement

The baby unit complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The baby unit should be installed and operated with a minimum distance of 8 in (20 cm) between the baby unit and all persons' body. Use o ther accessories may not ensure compliance with FCC RF exposure guidelines. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment complies also with Industry Canada RSS-102 with espect to Canada's Health Code 6 for Exposure of Humans to RF Fields.

California E<u>nergy Commissio</u> ttery charging testing mode

This baby monitor meets the California Energy Commission (CEC) regulations for energy consumption. Your baby monitor is set up to comply vith the energy-conserving standards right out of the

Follow the instructions to install and charge the battery. The CEC battery charging testing mode is activated while charging.

Even if the parent unit is paired to baby units, the CEC battery charging testing mode is activated while it is powered off and charging.
