Wi-Fi Full HD Video Monitor

VTech Wi-Fi HD Video Monitor allows you to stay close to your baby when you are on the move or away.
This monitor is Wi-Fi enabled, which uses your home wireless network to stream live video and audio through the HD camera unit and 5-inch touch screen parent unit. It allows you to maintain a constant connection to your baby.

You can also monitor from your smartphone and mobile tablet.
VTech Wi-Fi HD Video Monitor uses MyVTech Baby app to let you instantly see and hear what's happening with your baby from anywhere in the world. The app can be downloaded from the App Store or the Google Play™ Store, directly from your smartphone or mobile tablet.

Quick start guide

1 Set up Wi-Fi connection

❶ After the parent unit is fully charged, power on the parent unit.
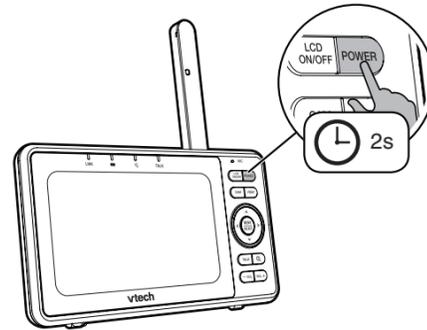

❷ Press ∨ or ∧ to choose your preferred and secured 2.4GHz Wi-Fi network with good signal strength, then press **SELECT**.
- You must select a password-protected network.

Wi-Fi Setting
Select Wi-Fi network
Select a password-protected 2.4 GHz Wi-Fi network for your viewer from the list below. The network must be password-protected to connect. If your network is hidden, set it to visible during installation.

📄 NOTE
- Write down or remember the security key. You will need to provide the same security key if you want to access your camera remotely.

❹ After the camera unit is successfully added to your parent unit, the parent unit displays the camera image in Single View.
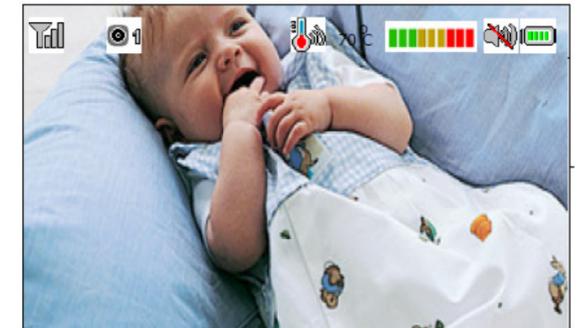

📄 NOTES
- You can pair up to 4 camera units to your parent unit.
- The camera preview will be refreshed every second.

Basic operation

Use the menu
Press **MENU/SELECT** to enter the menu, choose a menu item, or save a setting. You can use the parent unit menu for advanced setting or operations, such as to play or stop the camera unit lullaby, or adjust the camera unit sound sensitivity.

While in the menu:
- Press ∧ , ∨, ‹ or › to scroll among the menu options.
- Press **MENU/SELECT** to select an item.
- Press ‹ to return to the main menu or idle screen.
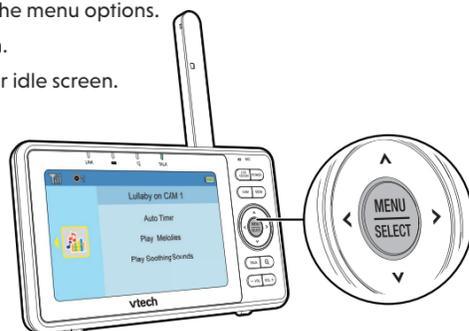

Adjust speaker volume
Press **-VOL** / **VOL+** to adjust your parent unit speaker volume. It determines the volume of sound transmitted from your camera unit.
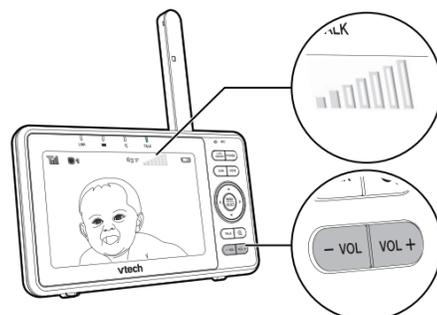

Zoom
Press ⊕ to zoom in or out.
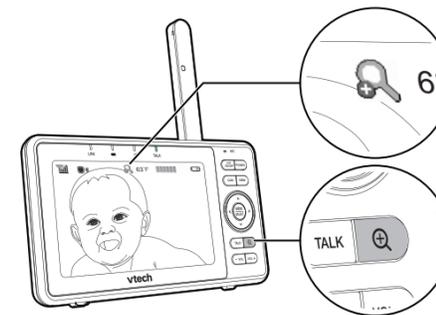

Talk to your baby unit
Press and hold **TALK** in Single CAM mode and speak to your parent unit. Your voice is transmitted to the baby unit.

Remote monitoring

1 Download the free **MyVTech Baby** mobile app from the App Store or Google Play store and install it to a mobile device, then you can use your mobile device and the mobile app to monitor your areas remotely.

📄 NOTE

- Make sure your mobile device meets the minimum requirement for the mobile app.

Minimum requirement

The mobile app is compatible with:
- Android™ 4.4 or later; and
- iOS 8.0 or later.

Install MyVTech Baby mobile app

1. Browse the App Store or the Google Play store.
2. Search for the mobile app with the keyword "myvtech baby".
3. Download and install the **MyVTech Baby** mobile app to your mobile device.

Driven by Android and iOS updates, **MyVTech Baby** mobile app, app manual, and online FAQs will be updated periodically.

Download and install the latest mobile app. For latest information and supports, go and check the app manual and online FAQs.

Download on the App Store
GET IT ON Google Play

2 Tap 📱 to run the mobile app on your mobile device, and then create a camera account.

- We recommend that you use common webmail services, such as Google Gmail for registration of your camera account.

6 Start using your monitoring system remotely.

📄 NOTES

vtech

- You must complete the camera setup in the above **1** **Set up Wi-Fi network** and **2** **Add camera** sections before you can access your camera remotely.

- Your parent unit can pair and access a maximum of 4 camera units. You can add more camera units to your HD video monitor system using the **MyVTech Baby** mobile app. Download the mobile app and create a camera account. Then, you can use the mobile app to pair your existing camera units in your parent unit to your camera account, and also pair additional camera units to your account. The mobile app can pair and access up to 10 camera units. The additional camera units can only be paired and accessed via the mobile app.

- Tap ☰ on the camera list to display the side menu, and then tap **Help** to refer to the online mobile app manual for the complete operation instructions. You can also scan the QR code on the right, or go to www.vtechphones.com/manual/RM5752/mobile, to open the manual in a web browser.
