This product is not intended for use as a medical monitor.

. Do not use this product near water, for example, near to a bath, sink, swimming pool or shower.

When using your equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following: Periodically examine all components for damage.

Children should be supervised to ensure that they do not play with the product.

24. The small parts of this monitor can be swallowed by babies or small children. Keep these parts out of reach of children.

- Use and store the product at a temperature between 32°F (0°C) and 104°F (40°C). Mishandling batteries can cause burn, fire or explosion
- Do not expose the product to extreme cold, heat or direct sunlight. Do not put the product close to a heating source.
- Warning—Strangulation Hazard—Children have STRANGLED in cords. Keep this cord out of the reach of children (more than 3 ff (0.9m) away). Do not remove warning label on the adaptor cord.
- Other electronic products may cause interference with your camera unit. Try installing your camera unit as far away from these electronic devices as possible: wireless routers, radios, cellular telephones, intercoms, room monitors, televisions, personal computers, kitchen appliances and cordless

Wireless Technology Research, LLC (WTR), an independent research entity, led a multidisciplinary evaluation of the iac pacemakers. Supported by the U.S. Food and ninistration, WTR recommends to physicians that:

Should keep wireless devices at least six inches from the pacemaker. Should NOT place wireless devices directly over the pacemaker, such as in a breast pocket, when it is turned ON.

- Electromagnetic fields (EMF) This VTech product complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user's manual, the product is safe to be used based on scientific evidence available today.
- 18. Never push objects of any kind into this product through the slots because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the
- 19. To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility. Opening or removing parts of the product other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassembling can cause electric shock when the product is subsequently used.
- 20. You should test the sound reception every time you turn on

CONNECT, CHARGE AND POWER ON THE PARENT UNIT

Connect the baby monitor

■ Notes

- The rechargeable battery in the parent unit is built-in.
- Use only the power adapters supplied with this product
- Make sure the parent unit and the baby unit are not connected to the switch controlled electric outlets.
- Connect the power adapters in a vertical or floor mount position only. The adapter prongs are not designed to hold the weight of the parent unit and the baby unit, so do not connect them to any ceiling, under-the-table, or cabinet outlets. Otherwise, the adapter may not properly connect to the outlets.
- Make sure the parent unit, the baby unit and the power adapter cords are out of reach of children.

How the system works

** TIP For better security and more stable connectivity, this baby monitor requires connecting to a Wi-Fi network and operating in Router mode connection.

Direct mode

Your baby monitor parent unit and baby unit connect to each other in Direct mode by default, which allows you to immediately stream video out of the box. It is NOT recommended to continue using Direct Mode connection after initial installation.

You may experience reduced signal strength if your parent unit and baby unit are far apart, or there are obstructing factors, such as internal walls, betwee them. Move the parent unit closer to the baby unit to improve the signal strength.

Connecting Wi-Fi to

enhance local access

Router mode

You are required to set up your monitor n **Router mode** to enjoy live video streaming via your parent unit with an enhanced connection. Router mode is the recommended mode for stable connectivity.

Router mode uses your home Wi-Fi network to connect your video monitor. It supports live video streaming through the parent unit and smartphone app.

If you want to stream live video remotely with your mobile device, download and install the **MyVTech Baby Pro** mobile app. With the mobile

app, your Wi-Fi router (not included) provides Internet connectivity to your HD video monitor system. It serves as a communicating channel between your baby unit and mobile device, allowing you to monitor and/or control your baby unit wherever you are. For more details, see **Download app for mobile access** section in this quick start guide.

■ Note

When both parent unit and app are viewing the camera simultaneously. the video quality will be optimised to deliver the best possible viewing result

BASIC OPERATION

After powering up your baby monitor, the parent unit streams live video in direct mode. We recommend you follow the instructions on-screen to set up home Wi-Fi network with your monitor for functionality enhancements and mobile access. See Auto software and firmware update and Download app for mobile access in this Quick Start Guide.

Use the menu

Press **MENU** on the parent unit to enter the main menu, choose a menu item, or save a setting. You can use the parent unit menu for advanced settings or operations, such as to play or stop the baby unit lullaby, or adjust the baby unit sound sensitivity.

While in the menu:

- Press \| \ \ \ \ \ \ \ \ \ \ \ \ to scroll through the menu options.
- Press **SELECT** to select an item. Press TALK to return to the live video.
- ullet Press igoplus to go to the **Help & info** page.

Adjust speaker volume

Press VOL - | VOL + to adjust the parent unit speaker volume level received from the

Press to zoom in or out in a fixed zoom

sequence. (2) indicates the image is magnified 2 times.

Talk to your baby via the baby unit

- 1. Press and hold the TALK key.
- 2. When the icon displays or screen, speak to your parent unit. Your voice is transmitted to the baby unit.
- 3. When finished talking, release the TALK key to hear your baby

- Press **U**|**LCD ON/OFF** on the parent unit to turn off the screen.
- the screen on again.

To restore to the default settings or reset the Wi-Fi connection, you can reset the parent unit
