Purpose of Change

Dear Sir/Madam:

Re: Application for a Permissive Change Filing with FCC ID: EW780-6044-01(Base)

The purpose of this document is to describe all the changes that are made to the VTECH designed model, **IP8301** from the current model IP8301.

Changes from the new IP8301 to the existing IP8301:

Change from Linear AC Adapter to SMPS

Similarities between the new IP8301 to the existing IP8301:

Same RF chip set and circuitry

Same frequency band & channels

The interface signals to and from the RF part are identical

The power supply scheme and the DC current consumption are very similar

Uses the same type of antenna

Sincerely,

Ricky Ng
Technical Manager
