Purpose of Change

Dear Sir/Madam:

Re: Application for permissive change of family models with FCC ID: EW780-6684-00

The purpose of this document is to describe all the changes on the VTech designed family models TL91XY8. The reason is to meet the new requirement of energy star and marketing strategy.

Changes from the originally granted family models TL92XY8 to the permissive changed models TL91XY8:

- Remove the answering machine
- Change enclosure of base unit
- Change the base adaptor from linear to switching power supply
- Change bluetooth antenna from helical type to L-shaped
- Modify the charging circuit of charger
- Change the charger adaptor rating from 200mA DC to 300mA AC.

Similarities between originally granted family models TL92XY8 and the permissive changed models TL91XY8:

- Same RF Module and circuitry in BS+HS;
- Same frequency band & channels

Sincerely,

Samson Man
Approbation Supervisor
