#### 1. IMPORTANT SAFETY INSTRUCTIONS

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following: 1. Read and understand all the instructions.

- 2.
  - Follow all warnings and instructions marked on the product.
- Unplug this product from the wall outlet before cleaning. Do not use liquid 3. cleaners or aerosol cleaners. Use a damp cloth for cleaning.
- 4. Do not use this product near water (for example, near a bath tub, kitchen sink, swimming pool).
- Do not expose the telephone to direct sunlight or extreme cold environment. Do 5 not put the telephone close to heating sources such as radiators, cookers, etc.
- Do not overload wall outlets and extension cords as this can result in the risk 6. of fire or electric shock.
- 7. Unplug this product from the wall outlet and refer servicing to the distributor under the following conditions:
  - When the power supply cord or plug is damaged or frayed.
  - If the product does not operate normally by following the operating instructions.
  - If the product has been dropped and the cabinet has been damaged.
  - If the product exhibits a distinct change in performance.
- 8. Avoid using a telephone (other than a cordless type) during an electrical storm. There may be a remote risk of electric shock from lightning.
- Do not use the telephone to report a gas leak in the vicinity of the leak. 9.
- Use only the supplied battery pack! The operation periods for the handsets 10. are only applicable with the default battery capacities.
- The use of other battery types or non-rechargeable batteries/primary cells can 11. be dangerous. These may cause interference and/or unit damages. The manufacturer will not be held liable for damage arising from such non-compliance.
- 12. Do not use third party charging bays. The batteries may be damaged.
- 13. Please note the correct polarity while inserting the batteries.
- 14. Battery should not be exposed to excessive heat such as bright sunshine or fire and immersed in water.

#### **Radiation Exposure Statement**

The antenna used for VVX D60 Wireless Base Station must be installed to provide a separation distance of at least 20 centimeters from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

#### **Body Worn Operation**

This device was tested for typical body-worn operations using the supplied belt-clip. To maintain compliance with FCC RF exposure requirements, Body-worn operations are restricted to the supplied belt-clip.

#### **Disposal Warning**

- When this crossed-out wheeled bin symbol is attached to a product, it means the product is covered by the European Directive 2002/96/EC.
- All electrical and electronic products/battery should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.

3. The correct disposal of your old appliance/battery will help prevent potential negative consequences for the environment and human health.

For more detailed information about disposal of your old appliance/battery, please contact your city office, waste disposal service or the shop where you purchased the product.

# 2. SET UP THE TELEPHONE

#### 2.1 Package Contents

The package contains the following items:

- 1 Handset
- 1 Base station
- 1 Power adaptor
- 2 Line cords
- Battery pack
- User's manual

#### 2.2 Location

For maximum coverage and reduce the interference, here are some guidelines you should consider when you place the base station:

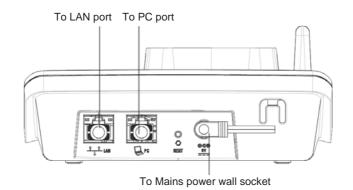

- Place your telephone within 2 metres of the mains power socket and telephone socket so that the cables will reach.
- Make sure it is at least 1 metre away from other electrical appliances to avoid interference. Your telephone works by sending radio signals between the handset and base. The strength of the signal depends on where you locate the base. Putting it as high as possible ensures the best signal.

If the reception for the base station location is not satisfactory, move it to another location for better reception.

Depending on the surrounding conditions as well as spatial and structural factors, the range may be reduced. The range indoors is normally less than outdoors.

#### 2.3 Connect the Base Station

- 1. Plug the power cable into the base station, and then plug the other end of the power adapter into the mains power wall outlet.
- 2. Plug a line cord into the LAN socket of the base station, and then plug the other end into a LAN port.
- 3. Plug another line cord into the PC socket of the base station, and then plug the other end into a PC port.

# To connect the existing VVX unit:

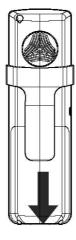

Plug the network cable provided with your existing VVX unit into a Power-over-Ethernet (PoE) LAN port, and then plug the other end into the VVX unit to power it on.

To LAN (PoE) port

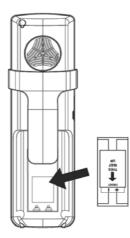

# 2.4 Install and Charge the Handset Battery

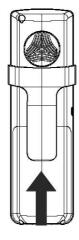

1. Slide open the battery compartment cover.

2. Insert the battery into the battery compartment, with the label **THIS WAY UP** facing upward and inverted.

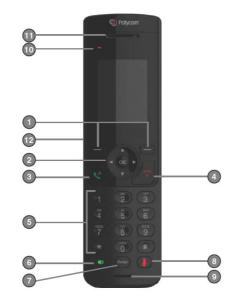

3. Slide the battery compartment cover towards the center of the handset until it clicks into place.

4. Place the handset in the base station or charger to charge.

# 3. GET TO KNOW YOUR PHONE

- 1. Press **MENU** in idle mode to enter the main menu.
- 2. Press  $\blacktriangle$  or  $\bigtriangledown$  to scroll to **Settings**, and then press **OK**.
- 3. Press  $\blacktriangle$  or  $\triangledown$  to scroll to **Preferences**, and then press **Select**.
- 4. Press  $\blacktriangle$  or  $\triangledown$  to scroll to Language list, and then press Select.
- 5. Press ▲ or ▼ to scroll to your desired language, and then press **Select** to save the preference.

## 6.5 Handset Name Settings

You can create a customized name for each handset. The name can be up to 15 characters.

- 1. Press **MENU** in idle mode to enter the main menu.
- 2. Press  $\blacktriangle$  or  $\triangledown$  to scroll to **Settings**, and then press **OK**.
- 3. Press  $\blacktriangle$  or  $\bigtriangledown$  to scroll to **Preferences**, and then press **Select**.
- 4. Press A or V to scroll to Handset Name, and then press Select.
- 5. Use the dialing keys to edit the handset name, and then press **Select** to save the preference.

# 6.6 Call Forwarding

- 1. Press **MENU** in idle mode to enter the main menu.
- 2. Press  $\blacktriangle$  or  $\triangledown$  to scroll to **Settings**, and then press **OK**.
- 3. Press ▲ or ▼ to scroll to Features, and then press Select.
- 4. Press Select to select Call Forwarding.
- 5. Press  $\blacktriangle$  or  $\triangledown$  to choose a line from the line list, and then press **Select**.
- 6. Press ▲ or ▼ to choose Always, No Answer, or Busy, and then press OK.
- 7. Use the dialing keys to enter the number to which the call you want to forward.
- 8. Press **OK** to confirm.

#### 6.7 Multiline Setup

- 1. Press **MENU** in idle mode to enter the main menu.
- 2. Press  $\blacktriangle$  or  $\triangledown$  to scroll to **Settings**, and then press **OK**.
- 3. Press  $\blacktriangle$  or  $\triangledown$  to scroll to Features, and then press Select.
- 4. Press  $\blacktriangle$  or  $\triangledown$  to scroll to **Multiline Setup**, and then press **Select**.
- 5. Select the incoming line(s) or outgoing line(s).

6. Press **OK** to confirm.

# 6.8 Check Handset Information

- 1. Press **MENU** in idle mode to enter the main menu.
- 2. Press  $\blacktriangle$  or  $\triangledown$  to scroll to **Settings**, and then press **OK**.
- 3. Press  $\blacktriangle$  or  $\triangledown$  to scroll to **Features**, and then press **Select**.
- Press ▲ or ▼ to scroll to Handset Information, and then press Select to check the handset information, including product name and software version.
- 5. Press **Back** to return the settings menu.

# 6.9 Registration and Deregistration of Handset

#### 6.9.1 Register a New Handset

If you purchased a new handset, or if for some reason, the handset is deregistered, follow the instructions below to register the handset to the base station.

- 1. Press **MENU** in idle mode to enter the main menu.
- 2. Press  $\blacktriangle$  or  $\triangledown$  to scroll to **Settings**, and then press **OK**.
- 3. Press  $\blacktriangle$  or  $\triangledown$  to scroll to **Features**, and then press **Select**.
- 4. Press  $\blacktriangle$  or  $\triangledown$  to scroll to **Registration**, and then press **Select**.
- 5. Press **Select** to select **Register**.
- The handset screen displays "Please Press the Pair Key on Base Station and Wait". Press the FIND (PAIR) key on the base station to start the handset registration.
  - If the base station has a PIN different from 0000, you will be prompted to input the PIN code of the base station, and then press Connect.

When the registration succeeds, the screen displays "**Registration Successful**".

#### 6.9.2 Deregister a Handset

If need to replace an old handset with a new handset, you need to deregister the old handset first before you register the new handset to the base station.

- 1. Press **MENU** in idle mode to enter the main menu.
- 2. Press  $\blacktriangle$  or  $\blacktriangledown$  to scroll to **Settings**, and then press **OK**.
- 3. Press  $\blacktriangle$  or  $\blacktriangledown$  to scroll to **Features**, and then press **Select**.
- 4. Press  $\blacktriangle$  or  $\triangledown$  to scroll to **Registration**, and then press **Select**.
- 5. Press  $\blacktriangle$  or  $\triangledown$  to scroll to **Deregister**, and then press **Select**.
- Press ▲ or ▼ to scroll to the handset that you need to deregister, and then press Deregister.
  - If the base station has a PIN different from **0000**, you will be prompted to input the PIN code of the base station, and then press **Deregister**.

When the Deregistration succeeds, the screen displays "**De-registration Successful**", followed by the prompt "**Please Register the Handset**".

# 6.10 Factory Reset

-

If necessary, you can reset your handset to the factory's "first boot" status. After reset:

- All settings will be reset to default.
- All contact or call records will be deleted.
- The handset will be deregistered from the base.
- 1. Press **MENU** in idle mode to enter the main menu.
- 2. Press  $\blacktriangle$  or  $\triangledown$  to scroll to **Settings**, and then press **OK**.
- 3. Press  $\blacktriangle$  or  $\triangledown$  to scroll to **Features**, and then press **Select**.
- 4. Press ▲ or ▼ to scroll to Factory Reset, and then press Select.
- 5. Press **OK** to confirm resetting handset to factory status.

# 7. CALL LOGS

The Call Logs comprise of the following elements.

Missed calls – Record of calls which have been missed by the user. Received calls – Record of calls which have been received by the user. Dialed calls – Records of calls made or dialed by the user. Recent calls – Mixed records of the Missed/Received/Dialed call.

# 7.1 Missed Calls

This comprises all the calls that were missed by the handset, and also the calls which were missed because the line was busy. You can call, view details, delete and add contact to the contact directory.

- 1. Press Lines in idle mode to enter the lines menu.
- 2. Press Options.
- 3. Press ▲ or ▼ to scroll to Enable DND or Disable DND, and then press OK to enable or disable DND mode.

# 10. CARE AND MAINTENANCE

#### Take care of your telephone

Your cordless telephone contains sophisticated electronic parts, so you must treat it with care.

Avoid rough treatment.

Place the handset down gently.

Save the original packing materials to protect your telephone if you ever need to ship it.

#### Avoid water

You can damage your telephone if it gets wet. Do not use the handset in the rain, or handle it with the wet hands. Do not install the base station near a sink, bathtub or shower.

#### **Electrical storms**

Electrical storms can sometimes cause power surges harmful to electronic equipment. For your own safety, take caution when using electric appliances during storms.

#### Cleaning your telephone

Your telephone has a durable plastic casing that should retain its luster for many year. Clean it only with a soft cloth slightly dampened with water or a mild soap.

Do not use excess water or cleaning solvents of any kind.

#### NOTE

Remember that electrical appliances can cause serious injury if used when you are wet or standing in water. If the base station should fall into water, DO NOT RETRIEVE IT UNTIL YOU UNPLUG THE POWER CORD AND TELEPHONE LINE CORDS FROM THE WALL. Then pull the unit out by the unplugged cords.

### CAUTION

# DISCONNECT ALL TELEPHONE LINE FROM THE WALL-OUTLET BEFORE REPLACING BATTERY. RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE.

# DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.
