vtech®

Night light on baby unit

5-level sound indicator
LEDs on the parent unit indicate the level of sound in your baby's room so you can visually monitor the noise level with the unit muted.

- DECT 6.0 digital technology
- Rechargeable battery
- Large backlit display
- Belt clip

Up to 1,500 feet of range
Stay connected to your baby from another room or even from the yard. Up to 50% more range over the current line.

Night light on baby unit
A soothing light on the baby unit gently illuminates a dark nursery.

Two-way, talk-back intercom
Sometimes all your baby needs is to hear the sound of your voice. Comfort your infant from any room with the built-in intercom on the portable parent unit.

Vibrating sound-alert on the parent unit
Enjoy some added peace by being silently alerted when there is sound in your baby's room.
