

**D765 VoIP Phone****IMPORTANT ADDITIONAL INFORMATION  
USA and Canada****FCC part 15**

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at the user's expense.

**WARNING:** Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Privacy of communications may not be ensured when using this telephone

**RF Radiation Exposure**

This VoIP Phone complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.

Caution: To maintain the compliance with the FCC's RF exposure guideline, place the VoIP Phone at least 20 cm from nearby persons.

**Industry Canada**

**This Class A digital apparatus complies with Canadian requirements: CAN ICES-3 (A)/NMB-3(A).**

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Privacy of communications may not be ensured when using this telephone.

The term "IC:" before the certification/registration number only signifies that the Industry Canada technical specifications were met. This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.

**RF Radiation Exposure**

This VoIP phone also complies with Industry Canada RSS-102 with respect to Health Canada's Safety Code 6 for human exposure to radiofrequency electromagnetic energy.

**Cet appareil numérique de la classe A est conforme à la norme NMB-003(A) du Canada.**

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage; (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

La confidentialité de vos conversations n'est pas garantie avec cet appareil.

Le terme « IC » avant le numéro d'homologation ne signifie seulement que les normes d'Industrie Canada ont été respectées. Le présent produit est conforme aux spécifications techniques applicables d'Innovation, Sciences et Développement économique Canada.

**Exposition aux Radiofréquences Électromagnétiques**

Cet appareil est conforme à la norme CNR-102 d'Industrie Canada en ce qui concerne le Code de Sécurité 6 de Santé Canada sur l'exposition humaine aux champs de radiofréquences électromagnétiques.
