

VTech ia5854 Cosmetic Photo

A collection of vintage VTech electronic devices is displayed on a light-colored surface. On the left is a large, silver-colored cordless phone base station. It features a handset cradle on the left, a digital display showing '8.8', and a keypad with various function buttons. A small, clear plastic bag with a red label is attached to the top right. Below the base station is a smaller, square-shaped silver-colored device, also with a handset cradle and the VTech logo. To the right of these are two identical cordless handsets, each with a numeric keypad and a small screen. Further to the right are two power supply units, each with a coiled black cable. The units are black and have technical specifications printed on them, including 'COMPONENT TELEPHONE POWER SUPPLY CLASS 2', 'MODEL NO. 117V 800A 2.5A', and 'OUTPUT: 50 VV 800MA'. The VTech logo is visible on the base station and the smaller square device.
