Subject: Request for Class 2 Permissive Change  
FCC ID: EWQRIVAWA

Dear Sir/Madam:

Itron hereby requests a Class 2 Permissive Change for an Automatic Meter Reading endpoint device for utility water meters, FCC ID: EWQRIVAWA. There are two models that differ only in packaging, to allow mounting and/or connecting on/to different manufacturer's water meters. For information, this device is also known as the 500W. This change is to add one new modulation: GFSK/100kpbs on an existing channel hop set. All emissions and related specifications were evaluated with the change and remain compliant. See reports included with this filing.

Sincerely,

A handwritten signature in black ink that reads "Jay R. Holcomb".
